*Built for your life*

Appliances • Sinks • Taps

April 2017

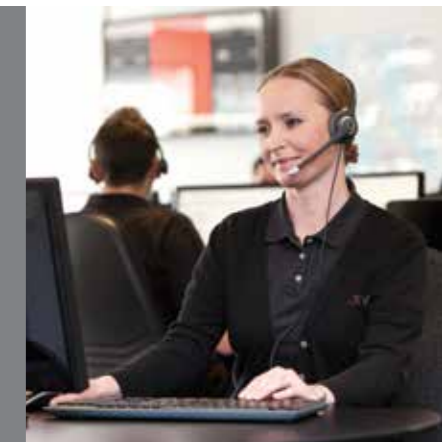

## ISO9001 accredited

FS 532687

CDA have achieved ISO9001 accreditation, recognising our commitment to continuous improvement.

## Why choose CDA?

### Our assurance of quality

Our on-site testing laboratory ensures that only safe, reliable products are brought to market. We test to the British consumers' exacting standards without compromise.

### Dedicated engineers

We use our own dedicated service engineers, equipped with a large range of CDA spare parts allowing them to achieve an excellent first time fix rate.

### In-house Customer Care Department

Our in-house Customer Care Department, based at our head office in Nottinghamshire, is made up of highly knowledgeable and experienced staff who will support you throughout the lifetime of your product.

### Over 25 years experience

Established for over 25 years, CDA have built a reputation for stylish, innovative and award winning products that consistently deliver outstanding results.

### More deliveries to you

CDA delivers to retailers & kitchen studios daily so your new appliances will arrive quickly. All of our stock is held between our 9 acre site in Nottinghamshire and an additional warehouse in Newton. These central locations are ideally located to ensure efficient and fast distribution across the UK.

### Part of the Amica group PLC

In December 2015, CDA became part of the Amica Group.

Amica, a kitchen appliance manufacturer based in Poland, operate in 50 countries worldwide and have over 70 years' experience in the industry.

CDA share the same vision of providing the best products possible, as well as our values of good environmental practice, and together we will deliver even more for customers.

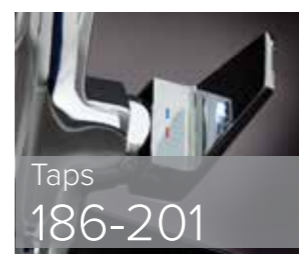

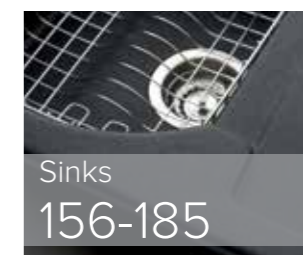

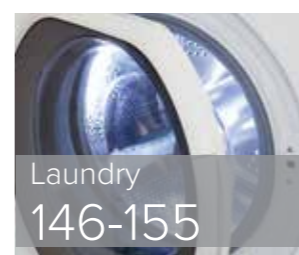

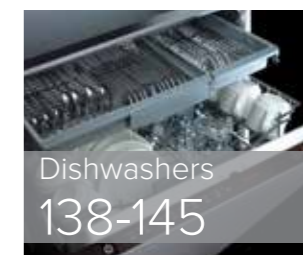

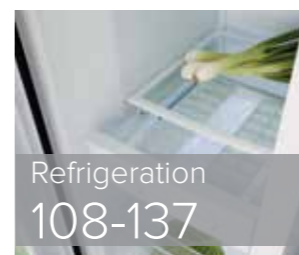

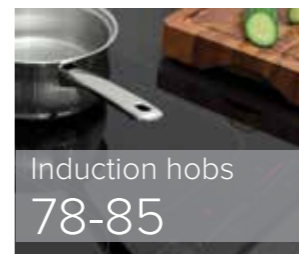

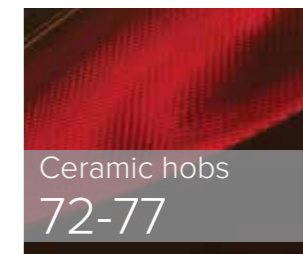

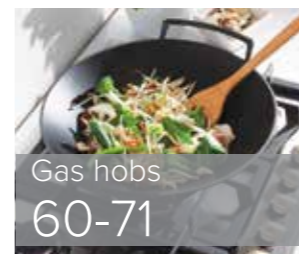

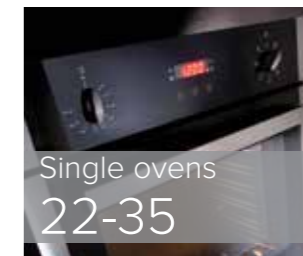

## Our guarantee

All CDA appliances are covered by a 5 year parts and 2 year labour guarantee for complete peace of mind.

# Contents

“Quality is something we respect and strive for in our products, our people and our service. Our reputation is built on delivering genuine quality through those three foundations every single day.”

Ian Kershaw  
CDA founder and Chairman

# Oven functions explained

## Oven light

This illuminates the oven cavity for easy viewing of food during cooking.

## Defrost

Using the fan only, this oven function circulates the air around the oven cavity, speeding up the natural defrosting process.

## Conventional oven

This function uses the top and bottom heating elements only. Natural convection creates a perfect cooking zone in the centre of the oven, ideal for dark fruit cakes and pastries.

## Fan-assisted oven

Using the fan to circulate the heat produced by the top and bottom heating elements, this function distributes the heat around the oven to give an even temperature throughout.

## Fan oven

Using the circular heating element and the fan, this cooking function circulates heated air around the oven cavity; temperatures are achieved quickly reducing the need for preheating. Both cooking temperature and cooking time can be reduced for a more energy efficient cooking programme. This is perfect for cooking various food types simultaneously as foods are sealed quickly to prevent flavour transfer.

## Fan cooking with lower heat

Using the fan element to enhance the main heat being produced by the lower heating element, this function is perfect for cooking pizzas.

## Fan cooking with upper heat

Uses the fan element and the top element to create a gentle heat, ideal for reheating already cooked foods or keeping food warm.

## Fan with lower heat

The fan circulates the heat produced by the bottom heating element, ideal for one pot dishes such as casseroles or curries.

## Browning oven

The perfect finishing touch, using the top element only this function browns and crisps food with conventional heat. This is ideal for cauliflower or macaroni cheese.

## Warming oven

Using heat produced only by the bottom element, this natural heat is perfect for dough proving and blind baking.

## Clean function

Using the eco-clean programme setting, the oven will heat the cavity to around 250°C, loosening grease effectively avoiding the need for harsh oven cleaner chemicals and unnecessary hard work.

## Full grill/Half grill

This fully variable grill is ideal for grilling a full family meal.

Some ovens offer a half grill option, using just the centre section for grilling smaller quantities.

## Turbo grill

This fully variable grill reaches higher temperatures than a standard grill, ideal for finishing off a crème brulee topping for example.

## Fanned electric grill/ Half fanned electric grill

This uses the grill element and the fan to circulate the heat around the food.

Some ovens offer a half fanned grill option, using just the centre section for grilling smaller quantities.

## Rotisserie electric

Using the grill element, heat is radiated down on to food which is rotating on the rotisserie aiding even browning.

## Rotisserie fanned grill

For fast, even cooking, the fan circulates the grill heat around the food as it turns on the rotisserie, creating a perfect crispy finish.

## Rotisserie conventional

Using both the top and bottom elements ensures even cooking when using the rotisserie, ideal for pork, chicken and beef.

## Steam oven

Cooking with the power of steam alone locks more nutrients into your food. Steaming is the healthier option for cooking meat, fish, vegetables and fruits.

## Pyrolytic cleaning

This function raises the temperature of your oven to 450°C, reducing any food deposits to a fine ash which can then be easily wiped away from the oven interior.

Full pyrolytic clean - 2 hours.

## Gas oven

Heat rises from the gas burner at the base of the oven. This method of cooking (hot at the bottom, cooler at the top) is perfect for family meals, as foods can be cooked at different temperatures at the same time.

## Gas grill

This variable gas grill is used with the door ajar, giving you perfect results when grilling chops, burgers and sausages.

## Rotisserie gas

Our gas range cooker offers a rotisserie option, using either the grill or oven.

## Fanned gas oven

Heat rises from the gas burner at the base of the oven and is distributed by a fan, creating an even cooking temperature.

## Microwave function

Food is cooked from the outside in using microwaves, making this style of cooking quick and convenient.

## Microwave and grill

Food is cooked from the outside in using microwaves with the added feature of the grill browning the food.

## Microwave and fan oven

Food is cooked using microwaves and browned on the outside by the fan oven.

*All electric, all gas or the best of both with a professional style gas hob and multifunction electric ovens. There is a choice to suit every cook in any kitchen.*

# Range cookers

Our contemporary range cookers are designed to be beautiful in both form and function.

## Multi-function

Finished in black glass and stainless steel, our range cookers combine good looks with outstanding performance.

The 90cm and 100cm twin cavity dual fuel models boast a large main oven with 8 cooking functions, and a second oven with 4 or 5 functions.

Selected models also have a rotisserie and/or useful storage drawer.

## 90cm range cookers

Our collection of 90cm range cookers offers full gas or full electric professional twin oven models with a substantial main oven and a useful second oven, or a single large capacity oven.

## Useful accessories

Useful accessories such as plate warmer racks and space saver shelves make CDA range cookers the perfect choice for keen cooks.

The RV1200 range cooker is provided with an aluminium pastry plate, as shown below. Please see the accessory section for our full range of optional accessories.

# Quick guide to range cookers

Our collection of range cookers offers a wide variety of sizes and configurations:

- All gas, all electric or dual fuel models available.
- Sizes from 70cm to 120cm wide.
- One, two or three oven cavities.
- Five or six hob burners or zones, with an additional griddle plate hob available.

Our all gas range cooker has:

- Automatic ignition.
- Flame failure - a feature designed to close off the gas supply in the event that a burner is accidentally extinguished.
- LPG conversion kit included.

## 70cm wide

  - Energy rating (second oven): A
  - Energy rating (third oven): A

*We understand that your oven needs to do more than just cook food well. That's why we've combined stunning new designs with the best cooking performance possible. With our wide range of ovens, including pyrolytic, touch control and gas models, you are guaranteed to find the perfect oven for your home.*

# Single ovens

Our expertise in appliance manufacture means that whichever of our many stylish models you choose, you can be certain of high performance, advanced technology and, of course, reliability.

## Stylish aesthetics

Our range of single ovens offers considered design features that will complete your kitchen perfectly. From ergonomically designed control knobs to brushed steel finish door handles and side strips, whichever model you choose, you can be sure that every detail has been deliberated to bring you the best in function and style.

## Large capacity ovens

CDA's range of single ovens, SK110, SK210, SK310 and SK410, features an extra-large cavity with a gross capacity of 80L. In real terms, this extra usable cooking space, plus additional shelf positions, will allow you to achieve better cooking results with more food in the oven at the same time.

The range features an energy rating of A and built in safety features, such as anti-tilt shelving to reduce accidents removing hot food from the oven, as standard.

With extra shelf positions available on the SK110, SK210, SK310 and SK410 oven models, up to 6 trays of cookies may be baked at once. This extra space means that you will also have no problem roasting a joint of meat, potatoes and vegetables together for a special family meal.

Extra large cavity

Cutting edge style,  
performance and reliability

#### Self-cleaning

Spend less time on chores by choosing a pyrolytic oven. The self-cleaning programme will allow you to get on with other things whilst your oven 'cleans itself'. The programme works by automatically locking the door, for your family's safety, and heating the internal oven cavity to over 450°C to incinerate residual cooking fat or spills to a fine ash. All you need to do is simply wipe the small amount of ash from the bottom of your oven away after the cycle has finished. What's more, running a pyrolytic programme costs around 45p; much cheaper than branded oven cleaners.

#### Easy clean enamel interior

Our ovens have a smooth, easy clean enamel interior. By using the highest grades of enamel during production, the oven walls are less porous and therefore much less susceptible to absorbing grease and residue from food whilst cooking; this results in an easy to maintain oven with effortless cleaning.

#### Cool door with removable glass

Our single and double oven range comes with removable door glass for easy cleaning and maintenance. With double glazed doors as standard the range also includes triple and quadruple glazed models, these are cool to the touch even whilst cooking at high temperatures.

Offset lateral  
halogen lights

#### Offset lateral halogen lights

The halogen lighting inside the SK310 and SK410 models provides clear illumination whilst cooking, allowing you to easily check the progress of your meal. By removing the need to open the oven door during cooking, an even temperature can be maintained to produce perfect results every time.

*Our touch control models, the SK410, SK510, VC801, VK702 and VK902, have discrete icons that are illuminated and clearly visible when in use but barely noticeable when not, leaving an uninterrupted clean line across your integrated CDA appliances.*

Design, innovation and passion are at the heart of everything that we do. Our products are manufactured using the highest quality materials to form the centrepiece of your kitchen.

# Quick guide to single ovens

CDA offer a choice of designs and features to meet a broad range of tastes.

*Products with this icon have a huge 80L gross capacity, providing plenty of room to cook for the whole family.*

- Total useable capacity: 76L net

**SK410** Ten function electric multi-function LCD oven

Where you see products featuring 'offset lateral halogen lights' we have positioned lights on both sides of the oven cavity. This provides superb illumination across all the oven shelves.

Features

- Full touch control
- LCD display
- Easy clean enamel interior
- Offset lateral halogen lights
- Cooling fan
- Chromed rack sides with integrated anti-tilt shelves
- Triple glazed removable cool door with removable inner glass for easy cleaning
- Booster function for rapid preheat
- Safety key lock

- Memory function
- 6 shelf positions

Accessories

- 2 flat oven shelves
- 1 grill pan with grid

Optional accessories

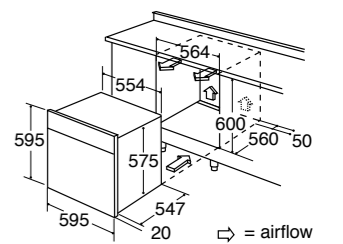

- Telescopic shelf kit TSK3
- Pizza stone ACG10
- Glass oven tray ACG20

Available in

- Stainless steel

Technical information

- Rated electrical power: 3.1kW
- Power supply required: 13A
- Total useable capacity: 76L net

**Self-cleaning**  
 The SK510 has a handy pyrolytic 'self-cleaning' function. Be sure to remove your oven shelves before running the programme to avoid discolouration of the chrome under the high cleaning temperature.

**Top tip**  
 The SK451 comes with a useful temperature probe that will automatically turn off the oven once the preselected core temperature of the food has been reached; this is perfect for achieving your preference of roasted meat or poultry is cooked thoroughly.

**SK510** Eleven function LCD pyrolytic oven

**SK451** Eleven function electric multi-function oven

The SK510 pyrolytic oven is fitted with a quadruple glazed cool door for safety. The door will automatically lock during the programme to prevent accidentally opening the oven at such a high temperature giving peace of mind during the cleaning cycle.

Stainless steel

Black

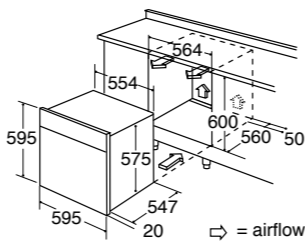

Using the eco-clean programme, the SK451 will heat the cavity to around 250°C loosening grease effectively, avoiding the need for harsh oven cleaner chemicals and unnecessary hard work. Combining this non-invasive programme with the fitted catalytic liners, your oven will stay clean and use minimal energy in the process.

- Features**
- Full touch control
  - LCD display
  - Interior halogen light
  - Cooling fan
  - Safety lock for pyrolytic cleaning functions

- 2 grill pan handles

#### Optional accessories

- Catalytic liners (3 piece), C9OL
- Pizza stone, ACG10
- Glass oven tray, ACG20

#### Available in

- Stainless steel

#### Technical specification

- Rated electrical power: 3.05kW
- Power supply required: 16A
- Total useable capacity: 87L net

# Compacts

A range of useful and innovative appliances to add functionality and that special finishing touch to your kitchen.

*Build your personalised cooking space by combining any of our compact appliances. Choose from steam and grill, combination microwave grill, fan oven or warming drawers to suit your needs.*

## Steam cooking

Cooking with steam preserves flavour, vitamins and minerals. Our steam oven makes the process easy and has a refillable reservoir removing the need for connection to the mains water supply.

## Compact ovens

Our compact range offers a steam oven and a compact combination model. The VK902 provides a grill, microwave and a fan oven all in one neat space, making it the perfect choice for kitchens where space is limited.

## Drawers

A warming drawer is ideal for warming plates, proving bread, melting chocolate, making yoghurt or keeping dishes and cooked food warm. These are so useful that once you've had one you'll never want to do without! As well as warming drawers, we also offer an innovative grill drawer with regulated control and a 30 minute timer- perfect for healthier integrated cooking.

## Compact coffee maker

The VC801 automatic coffee maker will make mornings worth waking up for. This built-in 60cm coffee maker brings CDA's sleek styling into your kitchen design whilst offering superb features and functions. It comes with full touch control, multiple grind settings along with adjustable coffee strength and quantity for your perfect hot drink. You can use coffee beans or pre-ground coffee with this machine making it truly flexible to your lifestyle.

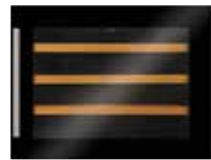

## Quick guide to compact cooking and microwaves

These versatile compact appliances look stunning when installed together as a bank. Install warming drawers beneath for ultimate cooking flexibility.

We have a choice of microwaves to suit your requirements - freestanding or built-in options are available.

## Compact refrigeration

Please see our refrigeration section for the following compact refrigeration products:

### FWV451

- Built-in compact wine cooler - See page 135.

### BVB4

- Built-in draught beer dispenser - See page 137.

- Turntable ring

### Available in

- Stainless steel

### Technical specification

- Total useable capacity: 17L net
- Rated electrical power: 1.05kW
- Power supply required: 5A

### Please note

- Not suitable for built-under worktop fitting.

# Double ovens

Available in both built-in and built-under options, CDA A rated double ovens offer a winning combination of extra cooking space and outstanding features.

*Programmable timers on all double oven models allow you to automate cooking times, leaving you to get on with everything else.*

Double ovens

## DC740 and DC940 double ovens

Choose between the DC740 & DC940 for useful extra cooking space at either an under counter 'built-under' or eye level 'built-in' height and design your cooking space around you.

## DK751, DK951 and DK1151 double ovens

The DK751, DK951 & DK1151 models sharpen up the styling with black glass that is opaque until the internal light is switched on, providing uninterrupted clean lines throughout your kitchen when you are not cooking. With multi-function main ovens on these models you will have more flexibility in cooking style at your fingertips.

## DK1151 double tower oven

Our double tower oven, the DK1151 offers the flexibility of two full size single oven cavities combined into one appliance. What's more, each oven may be individually controlled and comes with full multi-function cooking options.

## 9Q6 Q-style double oven

Our Q-style double oven can be matched to a four or five burner gas hob and a stunning circular extractor which are all designed to perfectly complement each other.

## Quick guide to double ovens

The CDA range of double ovens includes both built-in and built-under models to suit your kitchen.

All double ovens are A rated in both oven cavities.

Co-ordinating products

The 9Q6 oven matches the EVQ7 extractor and the 4Q4 and 4Q5 hobs.

# Hobs

Everyone has their preference and we offer everything from bridging induction hobs to professional style gas hobs in sizes from domino to extra wide.

*Look out for our bridging induction hobs which allow you to turn two zones into one large induction surface, maximising your cooking space.*

## Induction hobs

Not only is an induction hob quick to reach temperature by transferring heat directly to the pan by electromagnetic induction, it also reduces the energy losses associated with heat escape making it more accurate to control. Choose induction for quicker cooking, an easy to clean hob surface and precision control.

The specific requirement for cooking on an induction hob is that only ferromagnetic pans will work (a magnet will stick to the base of the pan if it is compatible with induction hobs). High quality, flat based pans work best with induction and new pans will carry this symbol on the packaging to show they can be used:

## Best of both

Combining the best of cooking on induction with gas, the HNG7410 bridges both technologies with 4 induction zones plus a single gas wok burner. The induction side includes a timer, slider controls and extra safety features making it perfect for family cooking. With the addition of a gas burner, this model becomes suitable for most types of cookware and cooking styles.

## Ceramic hobs

Ceramic hobs are popular choices and are available in a wide range of sizes from 30cm through to 90cm. Choose between manual and touch control, also look out for dual and triple heating zones which are ideal for larger pans and stock pots.

## Gas hobs

Options range from single or two burner domino hobs to professional style six burner models for maximum cooking space. Our Q-style range and gas on glass designs add an aesthetic wow factor to your kitchen.

## Domino hobs

Combine multiple domino hobs to create a flexible work area with a variety of cooking styles. Choose from gas, ceramic, induction or even a ceramic griddle.

# Quick guide to gas hobs

Our range of gas hobs offers a wide choice. This comprehensive collection includes 1 and 2 burner domino hobs, functional 4 burner hobs and stunning 5 and 6 burner hobs for the most professional kitchen.

We have included beautiful, solid cast iron pan supports as standard with most of our hobs, whilst the HCG301, HG6150 and HG6250 have enamelled pan supports if you prefer a dishwasher option.

All CDA gas hobs have automatic ignition and a flame failure device "Flame Safe," as standard.

Flame Safe is a feature designed to close off the gas supply in the event that a burner is accidentally extinguished.

### HCG301 Domino two burner gas hob

- Features**
- Front control
  - Enamel pan support
  - Automatic ignition
  - Flame failure included
- Accessories**
- LPG conversion kit included
- Optional accessories**
- Domino joint strip, AHJ30
- Available in**
- Stainless steel

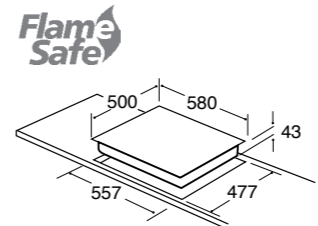

- Technical specification**
- Burners:**
- Front, semi-rapid: 1.75kW
  - Rear, rapid: 3kW
- Rated gas input: 4.75kW
  - Rated electrical power: 1W
  - Power supply required: 3A

### HG6350 Four burner gas hob

- Features**
- Front control
  - Cast iron pan supports
  - Automatic ignition
  - Flame failure included
  - Wok burner
- Accessories**
- Wok support
  - LPG conversion kit included
- Available in**
- Stainless steel
  - LPG gas version, HG6350LSS

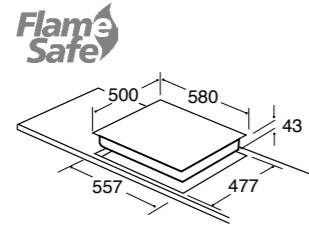

- Technical specification**
- Burners:**
- Front left, triple ring/wok: 3.8kW
  - Front right, auxiliary: 1kW
  - Rear left, semi-rapid: 1.75kW
  - Rear right, semi-rapid: 1.75kW
- Rated gas input: 8.3kW
  - Rated electrical power: 1W
  - Power supply required: 3A

### HG6150 Four burner gas hob

- Features**
- Side control
  - Enamel pan supports
  - Automatic ignition
  - Flame failure included
- Accessories**
- LPG conversion kit included
- Available in**
- Stainless steel

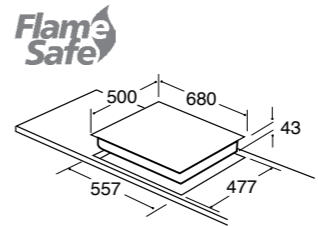

- Technical specification**
- Burners:**
- Front left, rapid: 3kW
  - Front right, auxiliary: 1kW
  - Rear left, semi-rapid: 1.75kW
  - Rear right, semi-rapid: 1.75kW
- Rated gas input: 7.5kW
  - Rated electrical power: 1W
  - Power supply required: 3A

### HG7250 Five burner gas hob

- Features**
- Front control
  - Cast iron pan supports
  - Automatic ignition
  - Flame failure included
  - Wok burner
- Accessories**
- Wok support
  - LPG conversion kit included
- Available in**
- Black

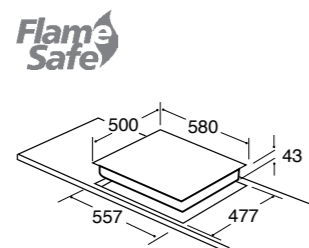

- Technical specification**
- Burners:**
- Front left, rapid: 3kW
  - Front right, auxiliary: 1kW
  - Centre, triple ring/wok: 3.8kW
  - Rear left, semi-rapid: 1.75kW
  - Rear right, semi-rapid: 1.75kW
- Rated gas input: 11.3kW
  - Rated electrical power: 2W
  - Power supply required: 3A

## HG7500 Four burner gas hob

### Features

- 2 wok burners (1 dual control)
- Front control
- Cast iron pan supports
- Automatic ignition
- Flame failure included

### Accessories

- Wok support (not shown)
- LPG conversion kit included

### Available in

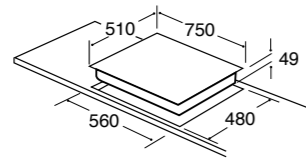

- Stainless steel

### Technical specification

#### Burners:

- Rear central, semi-rapid: 1.75kW
- Right, triple ring/wok: 3.5kW
- Front central, auxiliary: 1kW
- Left, dual burner: 4.2kW

- Rated gas input: 10.45kW
- Rated electrical power: 1W
- Power supply required: 3A

## HG9350 Five burner gas hob

### Features

- Wok burner
- Front control
- Cast iron pan supports
- Automatic ignition
- Flame failure included

### Accessories

- Wok support
- LPG conversion kit included

### Available in

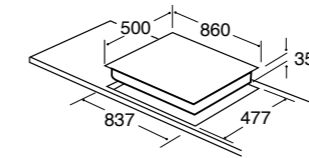

- Stainless steel

### Technical specification

#### Burners:

- Front central, auxiliary: 1kW
- Front right, semi-rapid burner: 1.75kW
- Left, wok burner: 3.8kW
- Rear central, rapid burner: 3kW
- Rear right, semi-rapid: 1.75kW

- Rated gas input: 11.3kW
- Rated electrical power: 2W
- Power supply required: 3A

## HG9320 Six burner gas hob

### Features

- Wok burner
- Side control
- Cast iron pan supports
- Automatic ignition
- Flame failure included

### Accessories

- Wok support
- LPG conversion kit included

### Available in

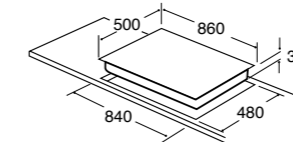

- Stainless steel

### Technical specification

#### Burners:

- Front left, triple ring/wok: 3.5kW
- Front centre, auxiliary: 1kW
- Front right, auxiliary: 1kW
- Rear left, semi-rapid: 1.75kW
- Rear centre, rapid: 3kW
- Rear right, semi-rapid: 1.75kW

- Rated gas input: 12kW
- Rated electrical power: 1.1W
- Power supply required: 3A

### HVG620 Four burner gas on glass hob

**Features**

- Bevelled edges
- Front control
- Cast iron pan supports
- Automatic ignition
- Flame failure included

**Accessories**

- LPG conversion kit included

**Available in**

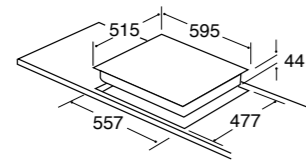

- Stainless steel
- Black

**Technical specification**

**Burners:**

- Front left, rapid: 3kW
- Front right, auxiliary: 1kW
- Rear left, semi-rapid: 1.75kW
- Rear right, semi-rapid: 1.75kW

- Rated gas input: 7.5kW
- Rated electrical power: 1.1W
- Power supply required: 3A

Stainless steel

Bevelled glass edges

### HG3601 Domino single burner gas on glass hob

**Features**

- Wok burner
- Front control
- Cast iron pan supports
- Automatic ignition
- Flame failure included

**Accessories**

- Wok support (not shown)
- LPG conversion kit included

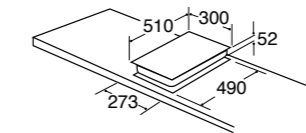

**Available in**

- Frameless

**Technical specification**

**Burner:**

- Centre, triple ring/wok: 3.5kW
- Rated gas input: 3.5kW
- Rated electrical power: 1W
- Power supply required: 3A

### HG3602 Domino two burner gas on glass hob

**Features**

- Front control
- Cast iron pan supports
- Automatic ignition
- Flame failure included

**Accessories**

- LPG conversion kit included

**Available in**

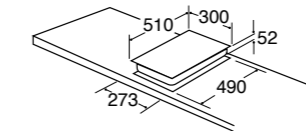

- Frameless

**Technical specification**

**Burners:**

- Front, semi-rapid: 1.75kW
- Rear, rapid: 3kW

- Rated gas input: 4.75kW
- Rated electrical power: 1W
- Power supply required: 3A

### HVG66 Four burner gas on glass hob

**Features**

- Front control
- Cast iron pan supports
- Automatic ignition
- Flame failure included

**Accessories**

- LPG conversion kit included

**Available in**

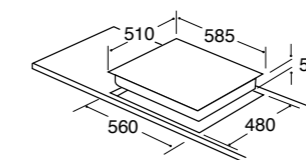

- Black

**Technical specification**

**Burners:**

- Front left, auxiliary: 1kW
- Front right, semi-rapid: 1.75kW
- Rear left, rapid: 3kW
- Rear right, semi-rapid: 1.75kW

- Rated gas input: 7.5kW
- Rated electrical power: 1W
- Power supply required: 3A

### HVG77 Five burner gas on glass hob

**Features**

- Wok burner
- Front control
- Cast iron pan supports
- Automatic ignition
- Flame failure included

**Accessories**

- Wok support
- LPG conversion kit included

**Available in**

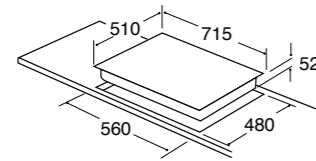

- Black

**Technical specification**

**Burners:**

- Front left, rapid: 3kW
- Front right, auxiliary: 1kW
- Centre, wok: 3.5kW
- Rear left, semi-rapid: 1.75kW
- Rear right, semi-rapid: 1.75kW

- Rated gas input: 11kW
- Rated electrical power: 1W
- Power supply required: 3A

### HVG96 Five burner gas on glass hob

**Features**

- Wok burner
- Front control
- Cast iron pan supports
- Automatic ignition
- Flame failure included

**Accessories**

- Wok support (not shown)
- LPG conversion kit included

**Available in**

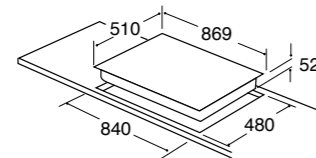

- Black

**Technical specification**

**Burners:**

- Front left, rapid: 3kW
- Front centre, auxiliary: 1kW
- Centre right, wok: 3.5kW
- Rear left, semi-rapid: 1.75kW
- Rear centre, semi-rapid: 1.75kW

- Rated gas input: 11kW
- Rated electrical power: 1W
- Power supply required: 3A

### HVG93 Four burner gas on glass linear hob

**Features**

- Wok burner
- Front control
- Cast iron pan supports
- Automatic ignition
- Flame failure included

**Accessories**

- Wok support (not shown)
- LPG conversion kit included

**Available in**

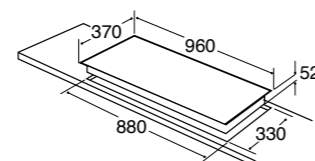

- Black

**Technical specification**

**Burners:**

- Left, wok: 3.5kW
- Centre left, auxiliary: 1kW
- Centre right, semi-rapid: 1.75kW
- Right, rapid: 3kW

- Rated gas input: 9.25kW
- Rated electrical power: 1W
- Power supply required: 3A

**Co-ordinating products**

This hob matches the 3D9 and EDD91 downdraft extractors.

### 4Q4 Four burner Q-style gas hob

**Features**

- Front control
- Cast iron pan supports
- Automatic ignition
- Flame failure included

**Accessories**

- LPG conversion kit included

**Available in**

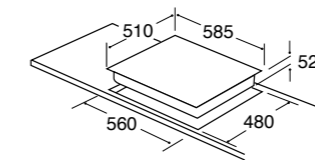

- Stainless steel

**Technical specification**

**Burners:**

- Front left, auxiliary: 1kW
- Front right, semi-rapid: 1.75kW
- Rear left, rapid: 3kW
- Rear right, semi-rapid: 1.75kW

- Rated gas input: 7.5kW
- Rated electrical power: 1W
- Power supply required: 3A

**Co-ordinating products**

This hob matches the 6Q5 and 9Q6 ovens as well as the EVQ7 extractor.

### 4Q5 Five burner Q-style gas hob

**Features**

- Wok burner
- Front control
- Cast iron pan supports
- Automatic ignition
- Flame failure included

**Accessories**

- Wok support
- LPG conversion kit included

**Available in**

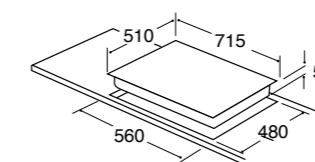

- Stainless steel

**Technical specification**

**Burners:**

- Front left, rapid: 3kW
- Front right, auxiliary: 1kW
- Centre, wok: 3.5kW
- Rear left, semi-rapid: 1.75kW
- Rear right, semi-rapid: 1.75kW

- Rated gas input: 11kW
- Rated electrical power: 1W
- Power supply required: 3A

**Co-ordinating products**

This hob matches the 6Q5 and 9Q6 ovens as well as the EVQ7 extractor.

# Quick guide to electric hobs

Our range of electric hobs includes a comprehensive selection of both manual and touch control 2, 4 and 5 zone ceramic hobs, high-tech induction hobs and domino hobs which you can put together in different combinations to suit your requirements.

All CDA ceramic and induction hobs have the following features:

- Easy clean surface
- Shatterproof ceramic safety glass
- Residual heat indicators

## Domino

## Indu-gas

### HCC310 Domino griddle hob

- Features
- Single ceramic griddle - cook directly on glass
  - 12 power levels with indicator light
  - Front control
  - Easy clean surface

- Technical specification
- Rated electrical power: 1.3kW
  - Power supply required: 13A

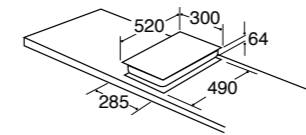

- Optional accessories
- Domino joining strip, AHJ30

- Available in
- Stainless steel

### HC3621 Domino two zone ceramic hob

- Features
- Front control
  - Electronic touch control
  - 9 power levels
  - Easy clean surface
  - Ceramic shatterproof safety glass
  - Residual heat indicators
  - Overflow detection
  - 99 minute timer
  - LED display
  - Safety key lock
  - Auto safety switch off
  - Temperature limiter
  - Time limit security system

- Technical specification
- Zones:
- Front, 145mm: 1.2kW
  - Rear, 180mm: 1.8kW
- Rated electrical power: 3kW
  - Power supply required: 13A

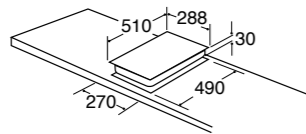

- Available in
- Frameless

### HCE340 Domino two plate electric hob

- Features
- Front control
  - 6 power levels with indicator light
  - 2 rapid plates

- Technical specification
- Hot plates:
- Front, 145mm rapid: 1.5kW
  - Rear, 180mm rapid: 2kW
- Rated electrical power: 3.5kW
  - Power supply required: 20A

- Optional accessories
- Domino joining strip, AHJ30

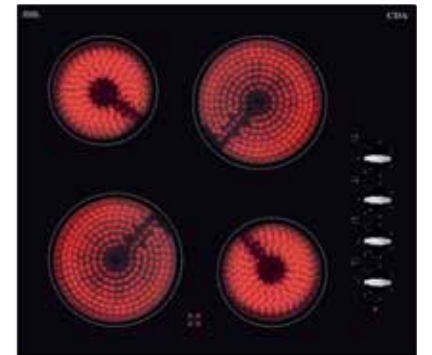

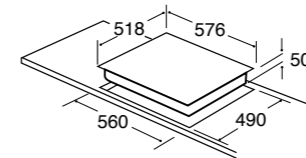

- Available in
- Stainless steel

### HC6211 Four zone ceramic hob

- Features
- Side control
  - 6 power levels with indicator light
  - Easy clean surface
  - Ceramic shatterproof safety glass
  - Residual heat indicators
  - Temperature limiter

- Technical specification
- Zones:
- Front left, 180mm: 1.8kW
  - Front right, 145mm: 1.2kW
  - Rear left, 145mm: 1.2kW
  - Rear right, 180mm: 1.8kW
- Rated electrical power: 6.0kW
  - Power supply required: 30A

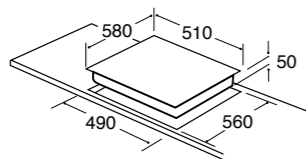

- Available in
- Frameless

### HE6051 Four plate electric hob

- Features
- Side control
  - 6 power levels with indicator light
  - 2 rapid plates

- Technical specification
- Hot plates:
- Front left, 180mm rapid: 2kW
  - Front right, 145mm: 1kW
  - Rear left, 145mm rapid: 1.5kW
  - Rear right, 180mm: 1.5kW
- Rated electrical power: 6.0kW
  - Power supply required: 30A

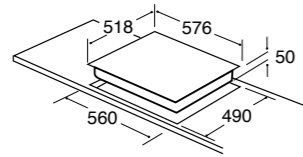

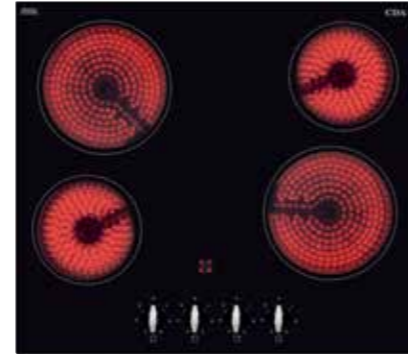

### HC6311 Four zone ceramic hob

**Features**

- Front control
- 6 power levels with indicator light
- Easy clean surface
- Ceramic shatterproof safety glass
- Residual heat indicators
- Temperature limiter

**Technical specification**

- Zones:**
- Front left, 180mm: 1.8kW
  - Front right, 145mm: 1.2kW
  - Rear left, 145mm: 1.2kW
  - Rear right, 180mm: 1.8W
- Rated electrical power: 6.0kW
  - Power supply required: 30A

**Available in**

- Frameless

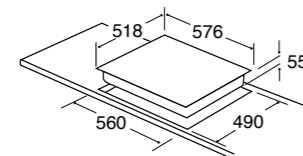

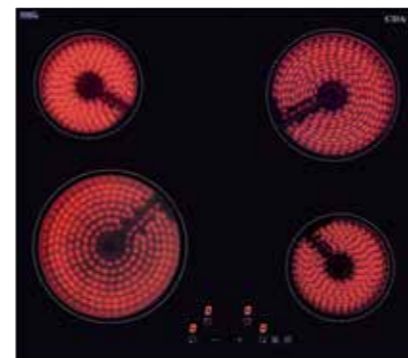

### HC6621 Four zone ceramic hob

**Features**

- Front control
- Electronic touch control
- 9 power levels
- Easy clean surface
- Ceramic shatterproof safety glass
- Residual heat indicators
- Overflow detection
- Overheat detection
- LED display
- Safety key lock
- Auto safety switch off
- Temperature limiter
- Time limit security system

**Technical specification**

- Zones:**
- Front left, 210mm: 2.3kW
  - Front right, 145mm: 1.2kW
  - Rear left, 145mm: 1.2kW
  - Rear right, 180mm: 1.8W
- Rated electrical power: 6.5kW
  - Power supply required: 30A

**Available in**

- Frameless

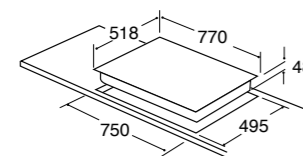

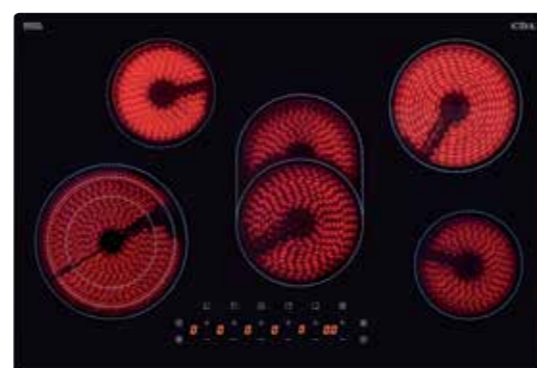

### HC7621 Five zone ceramic hob

**Features**

- Front control
- Electronic touch control
- 9 power levels
- Easy clean surface
- Ceramic shatterproof safety glass
- Residual heat indicators
- 99 minute timer
- LED display
- Safety key lock
- Overflow detection
- Overheat detection
- Auto safety switch off
- Time limit security system
- Temperature limiter

**Technical specification**

- Zones:**
- Front left (triple): -120mm: 0.8kW -175mm: 1.6kW -210mm: 2.3kW
  - Front right, 145mm: 1.2kW
  - Centre (dual): -170mm: 1.5kW -256mm: 2.2kW
  - Rear left, 145mm: 1.2kW
  - Rear right, 180mm: 1.8kW
- Rated electrical power: 8.7kW
  - Power supply required: 40A

**Available in**

- Frameless

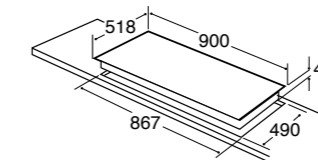

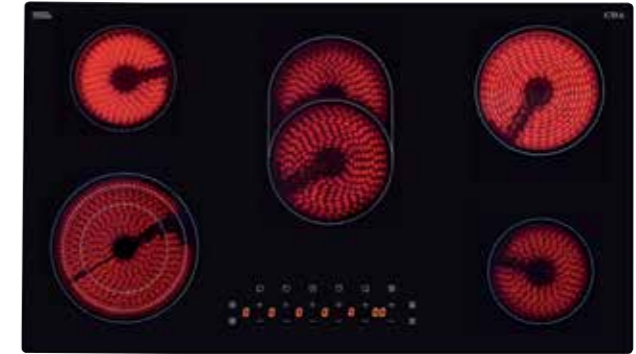

### HC9621 Five zone ceramic hob

**Features**

- Front control
- Electronic touch control
- 9 power levels
- Easy clean surface
- Ceramic shatterproof safety glass
- Residual heat indicators
- 99 minute timer
- LED display
- Safety key lock
- Overflow detection
- Overheat detection
- Auto safety switch off
- Time limit security system
- Temperature limiter

**Technical specification**

- Zones:**
- Front left (triple): -120mm: 0.8kW -175mm: 1.6kW -210mm: 2.3kW
  - Front right, 145mm: 1.2kW
  - Centre (dual): -170mm: 1.5kW -256mm: 2.2kW
  - Rear left, 145mm: 1.2kW
  - Rear right, 180mm: 1.8kW
- Rated electrical power: 8.7kW
  - Power supply required: 40A

**Available in**

- Frameless

### HC9626 Four zone ceramic linear hob

**Features**

- Front control
- Electronic touch control
- 9 power levels
- Easy clean surface
- Ceramic shatterproof safety glass
- Residual heat indicators
- 99 minute timer
- LED display
- Safety key lock
- Overflow detection
- Overheat detection
- Auto safety switch off
- Time limit security system
- Temperature limiter

**Technical specification**

- Zones:**
- Front left (triple): -120mm: 0.8kW -175mm: 1.6kW -210mm: 2.3kW
  - Centre left, 145mm: 1.2kW
  - Centre right (dual): -120mm: 0.7kW -180mm: 1.7kW
  - Front right (dual): -120mm: 0.7kW -180mm: 1.7kW
- Rated electrical power: 6.9kW
  - Power supply required: 30A

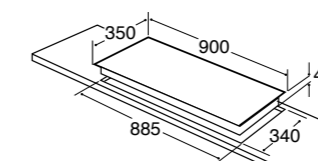

**Available in**

- Frameless

**Co-ordinating product**

This hob matches the 3D9 and EDD91 downdraft extractors, together they will both fit into a standard 600mm worktop depth.

## HN3621 Domino two zone induction hob

### Features

- Front control
- Electronic touch control
- 9 power levels
- Timer
- Keep warm function
- Easy clean surface
- Ceramic shatterproof safety glass
- Residual heat indicators
- Overflow detection
- Overheat detection
- Automatic pan detection
- Small object detection
- LED display
- Safety key lock
- Auto safety switch off
- Time limit security system

### Available in

- Frameless

### Technical specification

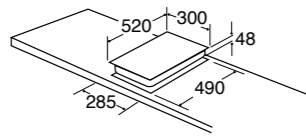

#### Zones:

- Front, 160mm: 1.4kW
- Rear, 160mm: 1.4kW

- Rated electrical power: 2.8kW
- Power supply required: 13A

#### Fitting note

- Please ensure that you check that there is sufficient clearance when fitting induction hobs over both single and built-under double ovens and that adequate ventilation is provided.

## HN6111 Four zone induction hob

### Features

- Front control
- Electronic touch control
- 9 power levels
- Booster function on all zones
- 99 minute timer
- Keep warm function
- Easy clean surface
- Ceramic shatterproof safety glass
- Residual heat indicators
- Overflow detection
- Overheat detection
- Automatic pan detection
- Small object detection
- LED display
- Safety key lock
- Auto safety switch off
- Time limit security system

### Available in

- Frameless

### Technical specification

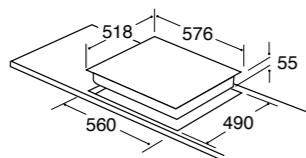

#### Zones:

- Front left, 210mm: 2kW, 3kW with booster
- Front right, 160mm: 1.2kW, 1.4kW with booster
- Rear left, 160mm: 1.2kW, 1.4kW with booster
- Rear right, 210mm: 2kW, 3kW with booster

- Rated electrical power: 7.4kW
- Power supply required: 32A

#### Fitting note

- Please ensure that you check that there is sufficient clearance when fitting induction hobs over both single and built-under double ovens and that adequate ventilation is provided.

## HN6411 Four zone eco induction hob

### Features

- Front control
- Electronic touch control
- 9 power levels
- Booster function on all zones
- Easy clean surface
- Residual heat indicators
- Overheat detection
- Overflow detection
- Automatic pan detection
- Small object detection
- Power share system
- LED display
- 99 minute timer
- Safety key lock
- Auto safety switch off
- Time limit security system

### Available in

- Frameless

### Technical specification

#### Zones:

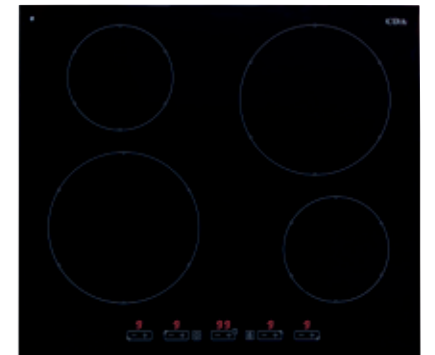

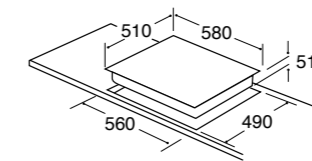

- Front left, 210mm: 1.5kW, 2kW with booster
- Front right, 145mm: 1.2kW, 1.6kW with booster
- Rear left, 145mm: 1.2kW, 1.6kW with booster
- Rear right, 210mm: 1.5kW, 2kW with booster

- Rated electrical power: 2.8/3.5/6/7.2kW (configurable)
- Power supply required: 13-32A (configurable)

- If the hob is configured for use with a supply below 32A, the hob will automatically regulate the power consumption so as not to exceed the power available.

#### Fitting note

- Please ensure that you check that there is sufficient clearance when fitting induction hobs over both single and built-under double ovens and that adequate ventilation is provided.

Our bridging induction hobs provide maximum flexibility, allowing you to turn two zones into one large induction surface for cooking with larger pots and pans.

**HN6731** Four zone induction hob

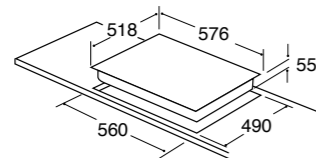

- Features
- Electronic touch control
  - Front control
  - Left zones bridging function
  - 9 power levels
  - Booster function on all zones
  - 99 minute timer
  - Pause/restart function
  - Keep warm function
  - Easy clean surface
  - Ceramic shatterproof safety glass
  - Residual heat indicators
  - Overflow detection
  - Overheat detection
  - Automatic pan detection
  - Small object detection
  - LED display
  - Safety key lock
  - Auto safety switch off
  - Time limit security system

- Technical specification
- Zones:
- Front left: 160mm, 1.4kW, 2kW with booster
  - Front right: 160mm, 1.2kW, 1.4kW with booster
  - Rear left: 160mm, 1.2kW, 1.4kW with booster
  - Rear right: 210mm, 2.3kW, 3kW with booster
- Rated electrical power: 7.1kW
  - Power supply required: 32A

- Fitting note
- Please ensure that you check that there is sufficient clearance when fitting induction hobs over both single and built-under double ovens and that adequate ventilation is provided.

**Keep warm function**  
 Select this function to maintain a programmed 70°C temperature on each zone, for up to 2 hours.

- Available in
- Frameless

**HN6841** Four zone induction hob with illuminated front edge

- Features
- Side bevelled edges
  - Illuminated front edge
  - Front control
  - Electronic touch and slide control
  - 9 power levels
  - Booster function on all zones
  - Left zones can be bridged
  - Right zones can be bridged
  - 99 minute timer
  - Pause/restart function
  - Melt function
  - Keep warm function
  - Simmer function
  - Easy clean surface
  - Ceramic shatterproof safety glass
  - Residual heat indicators
  - Overflow detection
  - Overheat detection
  - Automatic pan detection
  - Small object detection
  - LED display
  - Safety key lock
  - Auto safety switch off
  - Time limit security system

- Technical specification
- Zones:
- Front left: 220mm x 190mm, 2.2kW, 3.7kW with booster
  - Front right: 220mm x 190mm, 2.2kW, 3.7kW with booster
  - Rear left: 220mm x 190mm, 2.2kW, 3.7kW with booster
  - Rear right: 220mm x 190mm, 2.2kW, 3.7kW with booster
- Rated electrical power: 7.4kW

- Fitting note
- Please ensure that you check that there is sufficient clearance when fitting induction hobs over both single and built-under double ovens and that adequate ventilation is provided.

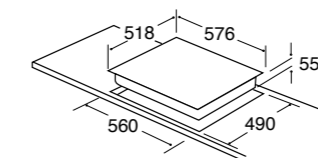

Side bevelled glass edges

**Illuminated edge**  
 Illuminated front edge serves to indicate that the hob surface is still hot.

Illuminated front edge

- Available in
- Frameless

## HN9611 Five zone induction hob

### Features

- Front control
- Electronic touch control
- Left zones bridging function
- Right zones bridging function
- 9 power levels
- Booster function on all zones
- 99 minute timer
- Pause/restart function
- Melt function
- Keep warm function
- Simmer function
- Easy clean surface
- Ceramic shatterproof safety glass
- Residual heat indicators
- Overflow detection
- Overheat detection
- Automatic pan detection
- Small object detection
- LED display
- Safety key lock
- Auto safety switch off
- Time limit security system

### Available in

- Frameless

### Technical specification

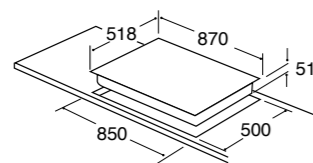

#### Zones:

- Front left: 210mm, 2.1kW, 3.7kW with booster
- Front right: 210mm, 2.1kW, 3.7kW with booster
- Rear left: 210mm, 2.1kW, 3.7kW with booster
- Rear centre: 260mm, 2.6kW, 3.7kW with booster
- Rear right: 210mm, 2.1kW, 3.7kW with booster

- Rated electrical power: 11.1kW
- Power supply required: 45A

#### Fitting note

- Please ensure that you check that there is sufficient clearance when fitting induction hobs over both single and built-under double ovens and that adequate ventilation is provided.

## HN9841 Six zone induction hob

### Features

- Front control
- Electronic touch and slide control
- Left zones bridging function
- Centre zones bridging function
- Right zones bridging function
- 9 power levels
- Booster function on all zones
- 99 minute timer
- Pause/restart function
- Melt function
- Keep warm function
- Simmer function
- Easy clean surface
- Ceramic shatterproof safety glass
- Residual heat indicators
- Overflow detection
- Automatic pan detection
- Small object detection
- LED display
- Safety key lock
- Auto safety switch off
- Time limit security system
- Temperature limiter
- Side and front bevelled edges

### Available in

- Frameless

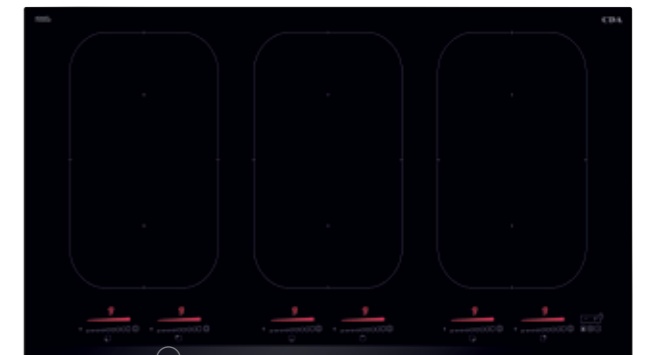

### Technical specification

#### Zones:

- Front left, 220mm: 2.1kW, 3.7kW with booster
- Front centre, 220mm: 2.1kW, 3.7kW with booster
- Front right, 220mm: 2.1kW, 3.7kW with booster
- Rear left, 220mm: 2.1kW, 3.7kW with booster
- Rear centre, 220mm: 2.1kW, 3.7kW with booster
- Rear right, 220mm: 2.1kW, 3.7kW with booster
- Rated electrical power: 11.1kW
- Power supply required: 45A

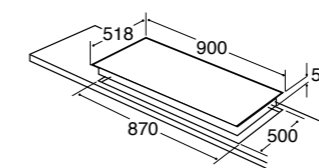

#### Fitting notes

- Please ensure that you check that there is sufficient clearance when fitting the induction hobs over both single and built-under double ovens and that adequate ventilation is provided.

Side bevelled glass edges

**Melt function**  
Use the melt function to slowly warm delicate foods that are prone to burning, such as chocolate or butter.

The HNG7410 bridges both technologies with 4 induction zones plus a single gas wok burner.

## HN9626 Four zone linear induction hob

### Features

- Front control
- Electronic touch control
- 9 power levels
- Booster function on all zones
- 99 minute timer
- Pause/restart function
- Keep warm function
- Easy clean surface
- Ceramic shatterproof safety glass
- Overheat detection
- Overflow detection
- Automatic pan detection
- Small object detection
- LED display
- Safety key lock
- Auto safety switch off
- Time limit security system
- Temperature limiter

### Available in

- Frameless

### Technical specification

#### Zones:

- Front left, 220mm: 2.3kW, 3kW with booster
- Centre left, 180mm: 1.2kW, 1.4kW with booster
- Centre right, 180mm: 1.2kW, 1.4kW with booster
- Front right, 220mm: 2.3kW, 3kW with booster
- Rated electrical power: 7.4kW
- Power supply required: 32A

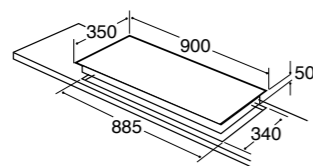

### Fitting notes

- Please ensure that you check that there is sufficient clearance when fitting the induction hobs over both single and built-under double ovens and that adequate ventilation is provided.

## Co-ordinating products

This hob matches the 3D9 and EDD91 downdraft extractors.

## HNG7410 Four zone induction hob with single gas wok burner

### Features

- Bevelled edges
- Front control
- Induction and gas combination
- 9 power levels
- Booster function (on 2 induction zones)
- 99 minute timer
- Automatic cooking function (induction zones)
- Automatic electronic touch control gas ignition
- Cast iron pan supports
- Residual heat indicators
- Overheat detection
- Overflow detection
- Auto safety switch off
- Wok burner
- Flame failure included

### Accessories

- Wok support (not shown)

### Available in

- Frameless

### Technical specification

#### Burners/zones:

- Left middle, dual wok: 5kW (gas)
- Middle rear, 215mm: 2.3kW, 3kW with booster
- Middle front, 175mm: 1.4kW
- Rear right, 175mm: 1.4kW
- Front right, 215mm: 2.3kW, 3kW with booster
- Rated gas input: 5kW
- Rated electrical power: 7.4kW
- Power supply required: 32A

### Please note

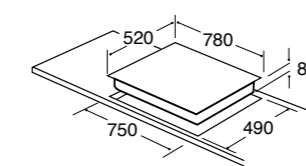

- This hob is supplied in natural gas only.

### Fitting note

- Please ensure that you check that there is sufficient clearance when fitting induction hobs over both single and built-under double ovens and that adequate ventilation is provided.

Bevelled glass edges

*Keep your kitchen smelling fresh and clean with one of our stylish extractors.*

# Extractors

As well as keeping your kitchen fresh, a stylish CDA extractor will provide a focal point, adding impact to the overall design.

## Automatic cut-off timer

The residual smells of cooking can leave a bad taste in the mouth and they don't stop being produced when the hob is switched off. That's why many touch control models offer an automatic cut-off timer to continue working until the residual steam and odours are removed from your home.

## Filter maintenance

A helpful saturated filter warning light lets you know when the dishwasher grease filters require cleaning, or the charcoal filters need replacing. Maintaining the filters allows your extractor to work safely at its best. By keeping your extractor running efficiently, you'll keep your energy bills in check and your home smelling great.

## Ducted/re-circulating

Choose between ducting your extractor outside or recirculating filtered, cleaned air back into your kitchen with the CDA extractor range. We provide a comprehensive range of ducting kits and charcoal filters, listed on our accessories pages, to support your preference.

## Peripheral aspiration

As well as giving the extractor a minimalist look, peripheral aspiration technology works to draw the air around the edges of the extractor instead of across the whole surface area. This means an ultra-efficient, quieter extractor that's also easy to keep clean.

## Lighting

Powerful lights provide bright and clear illumination when cooking. Several models feature low energy LED downlights and also ambient lighting to make a visual statement of the extractor in your kitchen.

# Quick guide to extractors

Our extensive range of extractors includes integrated and under canopy models, together with a great selection of stylish, contemporary chimney and island extractors for a chic design statement in your kitchen.

Most CDA extractor models have dishwasher aluminium grease filters.

## Extraction and noise level measurements

The extraction rate and noise level measurements are displayed in accordance with EN61591 for extraction rates and EN60704 for noise levels. These measurements provide an approximation of real world performance when installed with recommended ducting kits.

## Required distance between hob and extractor

Please refer to both your hob and extractor instructions before installation - for legal requirements, the distance between your hob and extractor should be determined by the maximum measurement provided.

## Ducting advice

Using ducting of smaller diameter than that recommended may increase the noise level and can reduce the efficiency of your extractor. Where possible, always use the largest diameter ducting you can.

## Functional

### CST61

- Standard extractor
- Available in stainless steel or white
- More details on p90

### EIN60

- Integrated extractor
- Available with acrylic or aluminium grease filters
- More details on p90

### CST61 Standard extractor

Stainless steel

White

#### Features

- Ducted/re-circulating installation
- 3 speeds
- Push button control
- Aluminium grease filter
- 1 x 28W halogen light
- Glass light diffuser

#### Optional accessories

- Ducting kit, AED51/53/54
- Charcoal filter for re-circulation, CHA5 (pack of 1)

#### Available in

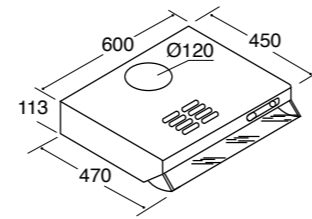

- Stainless steel
- White

#### Technical specification

- Required height over gas hob: 700mm (min)
- Required height over electric hob: 600mm (min)
- Outlet diameter: 120mm
- Noise level: 65dBA
- Extraction rate: 190m<sup>3</sup>/h
- Rated electrical power: 123W
- Power supply: 3A

#### Energy efficiency rating

- Energy rating: D

### EIN60 Integrated extractor

#### Features

- Ducted/re-circulating installation
- 3 speeds
- Slider control
- 1 x 28W halogen light

#### Optional accessories

- Ducting kit, AED51/53/54
- Charcoal filter for re-circulation, CHA15 (pack of 1)
- Aluminium grease filter, GRE3M
- Acrylic grease filter, GRE1

#### Available in

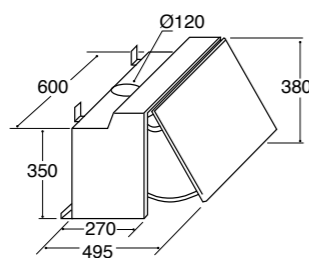

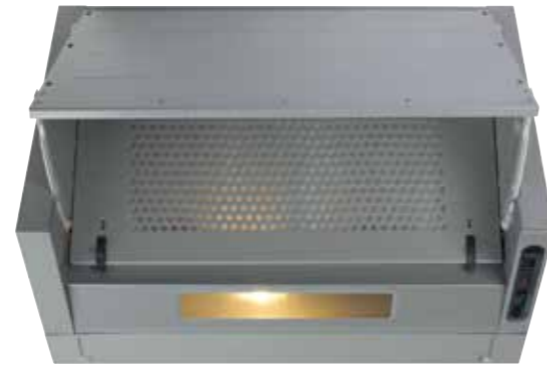

- Silver
- Silver - with aluminium grease filter, EIN60FSI

#### Technical specification

- Required height over gas hob: 700mm (min)
- Required height over electric hob: 600mm (min)
- Outlet diameter: 120mm
- Noise level: 62dBA
- Extraction rate:
  - EIN60: 197m<sup>3</sup>/h
  - EIN60FSI: 203m<sup>3</sup>/h
- Rated electrical power: 148W
- Power supply: 3A

#### Energy efficiency rating

- Energy rating: D

### CCA5/7 Canopy extractor

CCA7 - 70cm wide

CCA5 - 50cm wide

#### Features

- Ducted/re-circulating installation
- 3 speeds
- Slider control
- CCA5 – acrylic grease filter
- CCA7 – aluminium grease filter
- 1 x 28W halogen light (CCA5)
- 2 x 28W halogen lights (CCA7)
- Glass light diffuser

#### Optional accessories

- Ducting kit, AED51/53/54
- Charcoal filter for re-circulation - CHA1 (pack of 1)
- CCA5, Aluminium grease filter, GRE2M
- CCA5, Acrylic grease filter, GRE1

#### Available in

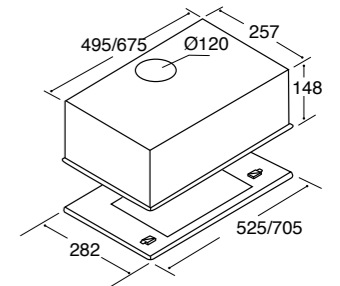

- CCA5 – silver or white
- CCA7 – silver

#### Technical specification

- Required height over gas hob: 700mm (min)
- Required height over electric hob: 600mm (min)
- Outlet diameter: 120mm
- Noise level:
  - CCA5: 65dBA
  - CCA7: 73dBA
- Extraction rate:
  - CCA5: 195m<sup>3</sup>/h
  - CCA7: 313m<sup>3</sup>/h
- Rated electrical power:
  - CCA5: 128W
  - CCA7: 256W
- Power supply: 3A

#### Energy efficiency rating

- Energy rating:
  - CCA5: D
  - CCA7: E

### CTE6 Telescopic extractor

#### Features

- Ducted/re-circulating installation
- 3 speeds
- Slider control
- Aluminium grease filters
- 2 x 28W halogen lights
- Glass light diffuser

#### Optional accessories

- Ducting kit, AED51/53/54
- Charcoal filter for re-circulation, CHA1 (pack of 1)

#### Available in

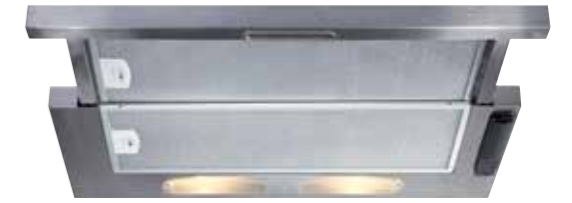

- Stainless steel

#### Technical specification

- Required height over gas hob: 700mm (min)
- Required height over electric hob: 600mm (min)
- Outlet diameter: 120mm
- Noise level: 65dBA
- Extraction rate: 195m<sup>3</sup>/h
- Rated electrical power: 156W
- Power supply: 3A

#### Energy efficiency rating

EVG9 halogen lights

### Clean air function

The clean air function means that your extractor comes on for ten minutes every hour, outside of use during cooking. In these ten minutes the extractor works to purify the air in your kitchen, meaning it is not just a companion for your hob; it even works hard when you are not cooking.

## EVM9 Geometric extractor

Side view

### Features

- Ducted/re-circulating installation
- 3 speeds + intensive
- Touch control
- Aluminium grease filter
- 2 x 20W halogen lights
- Twin fan motor
- Filter saturation warning light
- Clean air function
- 15 minute timer

### Optional accessories

- Ducting kit, AED61/63/64
- Charcoal filter for re-circulation, CHA2 (pack of 2)
- Chimney section, AEV01SS

### Available in

- Stainless steel with black glass fascia.

View from below

### Technical specification

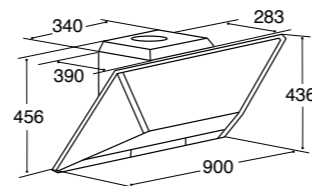

- Required height over CDA gas hob: 450mm (min), otherwise 760mm (min)
- Required height over CDA electric hob: 450mm (min), otherwise 650mm (min)
- Outlet diameter: 150mm
- Noise level: 64dBA
- Extraction rate: 478m<sup>3</sup>/h
- Rated electrical power: 290W
- Power supply required: 3A

### Energy efficiency rating

- Energy rating: D

### Fitting note

- Please ensure that you check the ceiling height is sufficient to allow the required clearance between the hob and extractor.

## EVC4 Cylinder extractor

Black

Stainless steel (side view)

### Features

- Ducted/re-circulating installation
- 3 speeds + intensive
- Soft touch buttons
- Aluminium grease filter
- 2 x 20W halogen lights
- Filter saturation warning light
- Clean air function
- 15 minute timer
- Peripheral aspiration

### Optional accessories

- Ducting kit, AED61/63/64
- Charcoal filter for re-circulation, CHA2 (pack of 2)

### Available in

- Stainless steel
- Black

### Technical specification

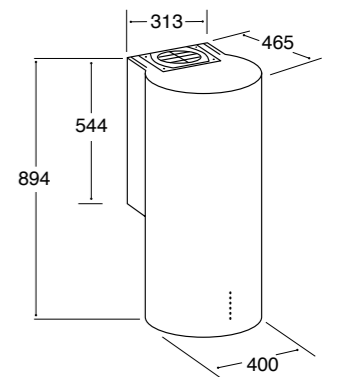

- Required height over gas hob: 650mm (min)
- Required height over electric hob: 650mm (min)
- Outlet diameter: 150mm
- Noise level: 62dBA
- Extraction rate: 503m<sup>3</sup>/h
- Rated electrical power: 290W
- Power supply: 3A

### Energy efficiency rating

- Energy rating: D

### Fitting note

- Please ensure that you check the ceiling height is sufficient to allow the required clearance between the hob and extractor.

## EVCK4 Cylinder island extractor

Stainless steel

Black

### Features

- Ducted/re-circulating installation
- 3 speeds + intensive
- Soft touch buttons
- Aluminium grease filter
- 2 x 20W halogen lights
- Filter saturation warning light
- Clean air function
- 15 minute timer
- Peripheral aspiration

- Stainless steel
- Black

### Technical specification

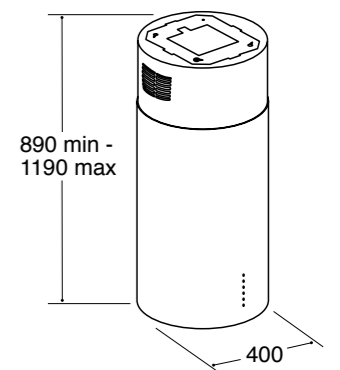

- Required height over gas hob: 650mm (min)
- Required height over electric hob: 650mm (min)
- Outlet diameter: 150mm
- Noise level: 62dBA
- Extraction rate: 503m<sup>3</sup>/h
- Rated electrical power: 290W
- Power supply: 3A

### Energy efficiency rating

- Energy rating: D

### Fitting note

- Please ensure that you check the ceiling height is sufficient to allow the required clearance between the hob and extractor.

**EVQ7** Circular extractor

Features

- Ducted/re-circulating installation
- 3 speeds + intensive
- Touch control
- Aluminium grease filter
- 2 x 20W halogen lights
- 99 minute variable timer
- Quick start

Optional accessories

- Ducting kit, AED61/63/64
- Charcoal filter for re-circulation, CHA16 (pack of 1)

Available in

- Stainless steel with black glass fascia

Technical specification

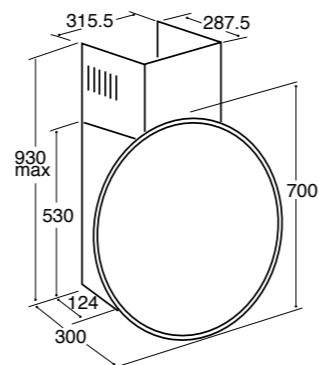

- Required height over gas hob: 650mm (min)
- Required height over electric hob: 650mm (min)
- Outlet diameter: 150mm
- Noise level: 71dBA
- Extraction rate: 393m<sup>3</sup>/h
- Rated electrical power: 238W
- Power supply required: 3A

Energy efficiency rating

- Energy rating: D

Fitting note

- Please ensure that you check the ceiling height is sufficient to allow the required clearance between the hob and extractor.

Co-ordinating products

This extractor matches the 6Q5 single oven, 9Q5 double oven, 4Q4 hob and 4Q5 hob.

**3U10** Updraft extractor

Features

- Ducted/re-circulating installation
- 3 speeds + intensive
- Touch control
- Aluminium grease filter
- 1 x 10W LED strip light
- Filter saturation warning light
- 10 minute timer

Optional accessories

- Ducting kit, AED61/63/64
- Charcoal filter for re-circulation, CHA32 (pack of 2)

Available in

- Stainless steel with black glass fascia.

Technical specification

- Required height over gas hob: 650mm (min)
- Required height over electric hob: 650mm (min)
- Outlet diameter: 150mm
- Noise level: 68dBA
- Extraction rate: 496m<sup>3</sup>/h
- Rated electrical power: 90W
- Power supply required: 3A

Energy efficiency rating

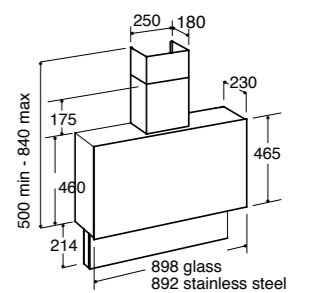

- Energy rating: C

Fitting note

- Please ensure that you check the ceiling height is sufficient to allow the required clearance between the hob and extractor.

This extractor matches any of our linear hobs.

# Cooling

Our refrigeration range includes everything from American style fridge freezers to under counter fridges, all carefully designed to keep your food under optimum conditions.

*Our fridge freezers are available in a combination of configurations, finishes and hinge options offering the perfect centrepiece for any kitchen.*

## A+ energy efficiency

We are committed to reducing our impact on the environment which is why our entire refrigeration range is at least A+ rated for energy efficiency. A+ rated products use up to 25% less energy than A rated models, meaning lower running costs.

## 4 star freezers

All CDA freezers come with a 4 star rating, the highest classification available. A 4 star rating allows you to store frozen food for up to 12 months and freeze fresh food efficiently and safely.

## LED interior lighting

This eye-catching feature will delight you as soon as you open the door. The LED lights emit no heat and run on very little energy. Plus, the beautifully designed PC900 American style premium frost free four door fridge freezer is bright enough to cast light into every corner of the fridge.

## Draught beer dispenser

This unique compact appliance can serve a beautiful pub-style pint of beer or lager in your own kitchen! The professional beer connection kit is pre-assembled on a steel plate ready for positioning below the dispenser. The beer passes through the integral flash chiller before it is dispensed at your preferred temperature.

# Quick guide to refrigeration

The CDA refrigeration range includes both integrated and freestanding options.

Integrated models offer a variety of fridge, freezer and combination options to suit your kitchen.

The freestanding range includes the superb American style side-by-sides, under counters, combination fridge freezers and a range of wine coolers.

All CDA fridges have an automatic self-defrosting feature so you never have to spend time defrosting your fridge.

# Wine coolers

Using the latest anti-vibration technology, UV-protection and temperature control, CDA wine coolers keep your collection in optimum condition.

*Variations in temperature, light and movement can all accelerate the ageing process and damage your collection. Installing a wine cooler is a practical and stylish addition to your kitchen. All models come with the latest technology to provide the perfect storage solution.*

## UV-protective toughened smoked glass doors

All CDA wine coolers have UV-protective, toughened, smoked glass doors to prevent sunlight spoiling the wine. This also assists thermal efficiency.

## Luxury wooden shelving

All models feature luxury solid wooden shelves as standard (excludes 15cm slimline models). The FWV901 integrated model also has the addition of a luxury wooden display shelf (shown above).

## Wine cooler glass shelf optional accessory

Our wine cooler glass shelf is perfect for storing smaller items such as bottles and cans - compatible with the FWC303, FWC603, FWC623 and FWC860 models. Please see our accessory section for details.

## Digital temperature control

All CDA wine coolers are designed with electronic temperature control which is adjustable between 5°C and 22°C. The red digital display is easy to use and has a convenient memory function.

## A rated energy efficiency

As we continually move forward and improve our products in response to new technology, our latest range of wine coolers has improved efficiency ratings to save on energy usage in your home.

## Bright LED interior lighting

Bright LED interior lighting illuminates the internal cavity beautifully and makes finding the right bottle quick and easy.

**FWC152** Freestanding/under counter slimline wine cooler

Stainless steel    Black glass

CDA's FWC152 in black glass or stainless steel comes with the same high specification as our larger models but is the perfect size to fill a kitchen gap with useful functionality.

**Features**

- Black plinth
- Red digital display
- Single temperature storage zone
- 6 integrated supports
- Electronic temperature control
- UV-protective toughened smoked glass door
- Double glazed door
- LED interior lighting
- Temperature memory function
- Over temperature alarm
- Height adjustable plinth section
- Safety key lock

**Available in**

- Stainless steel
- Black glass

**Technical specification**

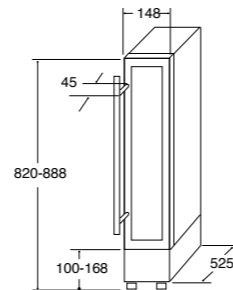

- Reversible door
- Rated electrical power: 60W
- Power supply required: 13A
- Noise level: 41dBA
- Temperature range: 5°C to 22°C
- Total bottle storage: 7 (75cL Bordeaux bottles)
- Compressor driven

**Energy efficiency rating**

- Energy rating: B

**Energy consumption**

- Energy consumption per annum: 186kW.h

**FWC603** Freestanding/under counter wine cooler

Stainless steel

Black glass

**Features**

- Black plinth
- Red digital display
- Dual temperature storage zones
- 5 wooden slide-out shelves
- Electronic temperature control
- UV-protective toughened smoked glass door
- Double glazed door
- LED interior lighting
- Temperature memory function
- Over temperature alarm
- Height adjustable plinth section
- Integral heater
- Humidifier to maintain 50-80% RH
- Safety key lock

**Optional accessories**

- Glass shelves (pack of 3), AFG61

**Available in**

- Stainless steel
- Black glass

**Technical specification**

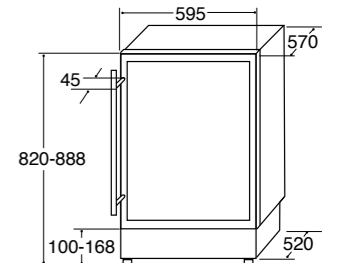

- Reversible door
- Rated electrical power: 100W
- Power supply required: 13A
- Noise level: 40dBA
- Temperature range in upper zone: 5°C to 22°C
- Temperature range in lower zone: 5°C to 22°C
- Bottle storage in upper zone: 16 (75cL Bordeaux bottles)
- Bottle storage in lower zone: 30 (75cL Bordeaux bottles)
- Total bottle storage: 46 (75cL Bordeaux bottles)
- Compressor driven

**Energy efficiency rating**

- Energy rating: B

**Energy consumption**

- Energy consumption per annum: 183kW.h

**FWC303** Freestanding/under counter slimline wine cooler

Stainless steel    Black glass

**Features**

- Black plinth
- Red digital display
- Single temperature storage zone
- 5 wooden slide-out shelves
- Electronic temperature control
- UV-protective toughened smoked glass door
- Double glazed door
- LED interior lighting
- Temperature memory function
- Over temperature alarm
- Height adjustable plinth section
- Humidifier to maintain 50-80% RH
- Safety key lock

**Optional accessories**

- Glass shelves (pack of 3), AFG31

**Available in**

- Stainless steel
- Black glass

**Technical specification**

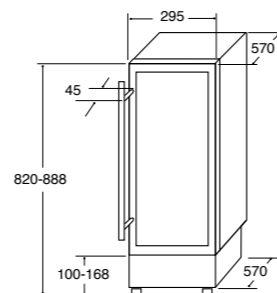

- Reversible door
- Rated electrical power: 85W
- Power supply required: 13A
- Noise level: 39dBA
- Temperature range: 5°C to 22°C
- Total bottle storage: 20 (75cL Bordeaux bottles)
- Compressor driven

**Energy efficiency rating**

- Energy rating: A

**Energy consumption**

- Energy consumption per annum: 139kW.h

**FWC623** Freestanding/under counter double door wine cooler

Stainless steel

Black glass

Models like the FWC623 offer two storage zones, allowing you to keep both white and red wines perfectly alongside one another.

**Features**

- Black plinth
- Red digital display
- Dual temperature storage zones
- 11 wooden slide-out shelves
- Electronic temperature control
- UV-protective toughened smoked glass doors
- Triple glazed door
- LED interior lighting
- Temperature memory function
- Over temperature alarm
- Height adjustable plinth section
- 2 humidifiers to maintain 50-80% RH
- Safety key lock

**Optional accessories**

- Glass shelves (pack of 3), AFG31

**Available in**

- Stainless steel
- Black

**Technical specification**

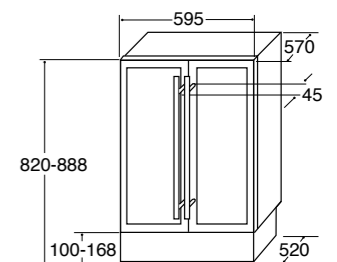

- Rated electrical power: 100W
- Power supply required: 13A
- Noise level: 42dBA
- Temperature range in left zone: 5°C to 22°C
- Temperature range in right zone: 5°C to 22°C
- Bottle storage in left zone: 20 (75cL Bordeaux bottles)
- Bottle storage in right zone: 20 (75cL Bordeaux bottles)
- Total bottle storage: 40 (75cL Bordeaux bottles)
- Compressor driven

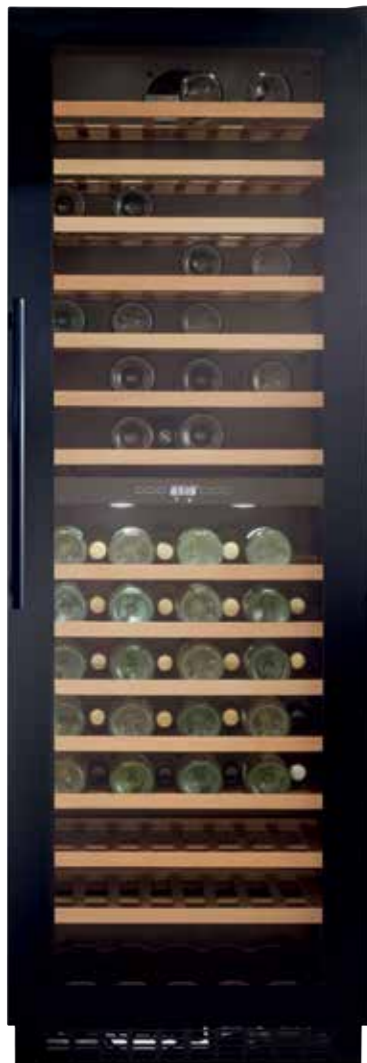

**Energy efficiency rating**

- Energy rating: B

**Energy consumption**

- Energy consumption per annum: 195kW.h

**FWC860** Full height freestanding wine cooler

## Features

- Black plinth
- Red digital display
- Dual temperature storage zones
- 14 wooden slide-out shelves
- Electronic temperature control
- UV-protective toughened smoked glass door
- Triple glazed door
- LED interior lighting
- Energy saving mode
- Temperature memory function
- Over temperature alarm
- Door open alarm
- Humidifier in upper zone to maintain 50-80% RH
- Integral heater
- Safety key lock

## Optional accessories

- Glass shelves (pack of 3), AFG61
- Joining kit, AFJ61

## Available in

- Black

Co-ordinate the FF820, FWC860 and FF880 for the ultimate cooling station. Remember to add an AFJ61 kit containing the joining strips and plinth to seamlessly combine all three appliances.

## Technical specification

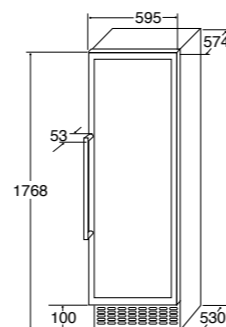

- Height adjustable feet
- Reversible door
- Rated electrical power: 160W
- Power supply required: 13A
- Noise level: 45dBA
- Temperature range in upper zone: 5°C to 22°C
- Temperature range in lower zone: 5°C to 22°C
- Bottle storage in upper zone: 64 (75cL Bordeaux bottles)
- Bottle storage in lower zone: 62 (75cL Bordeaux bottles)
- Total bottle storage: 126 (75cL Bordeaux bottles)
- Compressor driven

## Energy efficiency rating

- Energy rating: B

## Energy consumption

- Energy consumption per annum: 225 kWh

**FWV901** Integrated wine cooler

Black glass

The FWV901 allows you to display your special bottles on a purpose built internal display shelf.

## Features

- Red digital display
- Dual temperature storage zones
- 5 wooden slide-out shelves and 1 wooden display shelf
- Electronic temperature control
- UV-protective toughened smoked glass door
- Triple glazed door
- LED interior lighting
- Temperature memory function
- Over temperature alarm
- Door open alarm
- Energy saving mode
- Display light function
- Humidifier to maintain 50-80% RH
- Safety key lock

## Accessories

- 1 wooden display shelf

## Available in

- Temperature range: 5°C to 22°C
- Bottle storage: 24 (75cL Bordeaux bottles)
- Compressor driven

## Energy efficiency rating

- Energy rating: A

## Energy consumption

- Energy consumption per annum: 140kWh

**Integrated compact draught beer dispenser**  
 With an integrated flash chiller, this beer dispenser will have your drink chilled and ready to serve in just 5 minutes.

## FWV600 Integrated compact wine cooler

Black glass

### Features

- Red digital display
- Single temperature storage zone
- 4 wooden slide-out shelves
- Electronic temperature control
- UV-protective toughened smoked glass door
- Triple glazed door
- LED interior lighting
- Temperature memory function
- Over temperature alarm
- Door open alarm
- Energy saving mode
- Display light function
- Humidifier to maintain 50-80% RH
- Safety key lock

### Available in

- Black

### Technical specification

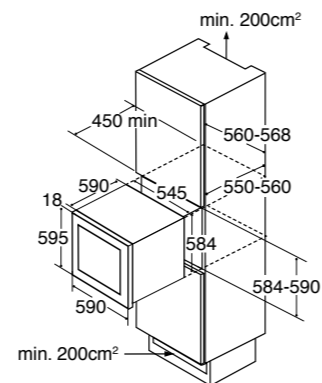

- Reversible door
- Rated electrical power: 100W
- Power supply required: 13A
- Noise level: 39dBA
- Temperature range: 5°C to 22°C
- Bottle storage: 40 (75cL Bordeaux bottles)
- Compressor driven

### Energy efficiency rating

- Energy rating: A

### Energy consumption

- Energy consumption per annum: 140kW.h

## BVB4 Integrated compact draught beer dispenser

### Features

- Professional fully integrated beer dispenser
- Compatible with 10L, 30L and 50L kegs
- Ready to dispense beer within five minutes of installation without chilling the keg in advance
- Supplied with CO<sub>2</sub> canister
- Temperature controlled by thermostat: 4°C to 8°C
- LED lighting
- Easy cleaning process
- Removable drip tray
- Supplied with S-type connector

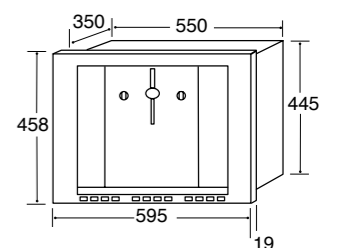

### Optional accessories

- Alternative keg connectors, ABC001 (G-type)/ABC005 (A-type)
- CO<sub>2</sub> bottle, ABC002
- Cleaning tablets, ABC003
- Alternative cleaning connectors, ABC004/ABC006

This appliance is supplied with a full professional connecting kit and is designed to fit in a full height unit, which will house the beer keg and connections directly below the built-in dispensing unit.

The line drawing shows the dimensions of the built-in dispensing unit only.

# Dishwashers

CDA dishwashers have been designed with function and performance in mind, with features like hidden controls to keep your programme selection safe from small hands. Combining energy saving features and intelligent technology they deliver perfect results, every time.

*Our intelligent dishwashers sense the level of soiling and select the corresponding temperature and amount of water for the best possible wash performance. Energy and water usage is optimised by using only the energy required for the job and no more.*

## Drying

Special features like Active Drying, on models like the WC600, mean that your dishwasher doesn't rely on passive heat to dry the dishes. Instead, it forces air around the cavity using a fan; drying them quickly and efficiently.

## Energy efficiency

All our dishwashers are A++ rated for energy efficiency.

## Flood protection

All our dishwashers offer leak detection to avoid flood damage in your home. For total peace of mind, the Aquastop system in models like the WC600 dishwasher will automatically cut off the water supply in the event of a leak or flood.

## Water consumption

It is a common misconception that dishwashers use more water than hand washing alone. The average household would complete two lots of hand washing per day, using 21 litres of water each time. With CDA dishwashers using between just 9 and 12 litres of water per load, and holding up to 15 place settings, you can take care of the washing up, your energy usage and water consumption all at the same time, whilst being friendly to the environment.

# Quick guide to dishwashers

CDA dishwashers combine state-of-the-art technology with meticulous build quality to give you reliable performance for years to come.

All our dishwashers feature:

- A++ rating for energy efficiency
- Cold water fill
- Counter-balanced door
- Upper height-adjustable basket to accommodate larger items
- Concealed heating element to protect the bottom basket
- Delay timer to take advantage of off-peak electricity

## Freestanding dishwashers

## WC371 Integrated intelligent dishwasher

### Features

- 13 place settings
- Half load operates either upper or lower baskets individually or half load of both baskets
- 1-19 hour delay timer
- 3 spray levels
- LED rinse aid indicator
- LED salt indicator
- Acoustic signal for end of programme
- Electronic softener adjustment
- 3-in-1 function
- Levelling feet with front control
- Height adjustable upper basket when loaded
- Grey baskets
- GlassGuard - wine glass supports

### Programmes

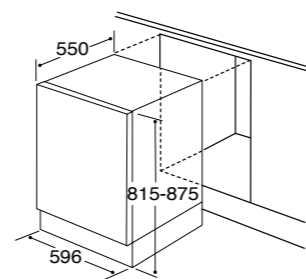

- 9 programmes
- Prewash (cold)
- Quick wash 40°C
- Eco 50°C
- 55 minute express wash 60°C
- Auto normal 50-60°C
- Auto intensive 60-70°C
- Auto delicate 30-50°C
- Intensive 60°C
- Intensive+ 70°C

### Technical specification

- Rated electrical power: 1.9kW
- Power supply required: 13A
- Noise level: 45dBA

### Energy efficiency rating

- Energy rating: A++
- Wash rating: A
- Drying rating: A
- Energy consumption per annum: 261kW.h
- Water consumption per annum: 2520L
- Energy consumption per cycle: 0.9kW.h
- Water consumption per cycle: 9L

## WC600 Integrated intelligent dishwasher

### Features

- 15 place settings
- LED interior light
- Half load operates either upper or lower baskets individually or half load of both baskets
- 1-19 hour delay timer
- 3 spray levels
- LED rinse aid indicator
- LED salt indicator
- Acoustic signal for end of programme
- Electronic softener adjustment
- Active drying system
- 3-in-1 function
- Levelling feet with front control
- Top level cutlery drawer with separate removable sections
- Height adjustable upper basket when loaded
- Grey baskets with easy grip handles
- Lower basket with folding racks
- Aquastop

### Programmes

- 9 programmes
- Prewash (cold)
- Quick wash 40°C
- Eco 50°C
- 55 minute express wash 60°C
- Auto normal 50-60°C
- Auto intensive 60-70°C
- Auto delicate 30-50°C
- Intensive 60°C
- Intensive+ 70°C

### Optional accessories

- Variospace wine glass holder, AWG100

### Technical specification

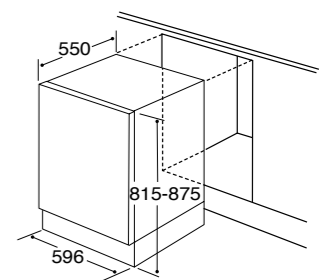

- Rated electrical power: 1.9kW
- Power supply required: 13A
- Noise level: 45dBA

### Energy efficiency rating

- Energy rating: A++
- Wash rating: A
- Drying rating: A

### Energy consumption

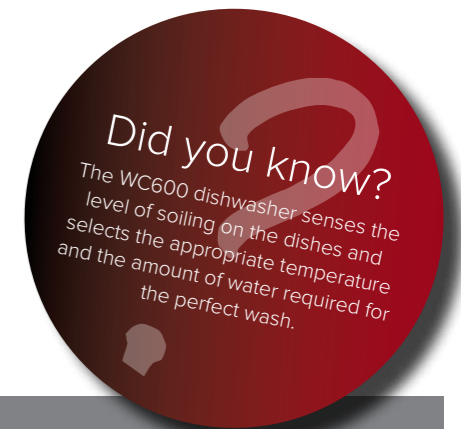

- Energy consumption per annum: 267kW.h
- Water consumption per annum: 2520L
- Energy consumption per cycle: 0.94kW.h
- Water consumption per cycle: 9L

Top level cutlery basket with easy grip handles

Variospace wine glass holder, AWG100 (optional accessory)

*Look out for our models with an Eco-logic feature. These machines can detect smaller loads and will use less water and power accordingly.*

# Laundry

All of our washing machines are A rated or better for wash performance. Being equipped with the latest programmes and features, they make efficient use of water and energy.

## Choice

CDA's range consists of both integrated and freestanding washing machines, tumble dryers and washer dryers. All models combine high performance with energy efficiency and are perfect for any home.

## Quick wash

All our washers come with a quick wash option making life easier for busy families. We have pioneered super quick wash programmes that can do a wash in just 15 minutes on the CI325, CI371, CI925 and CI971 whilst the CI261 model takes just 12 minutes!

## Advanced technology

The latest technology is used in the development of our high tech laundry products. Intelligent digital sensors that monitor the spin cycle, a choice of up to 15 programmes and special functions such as Quick Wash, Easy Iron and Delicate Wash mean that our machines will deliver great results with every wash load.

## Quick guide to laundry

The CDA laundry range includes integrated and freestanding washing machines, washer dryers and tumble dryers.

All CDA washing machines and washer dryers have the following features:

- Robust stainless steel drum
- Safety door lock
- Cold water fill
- Integrated machines take a full height furniture door which can be hinged on the right or left

### Freestanding washing machine

#### CI261

- 1200 spin speed
  - 9kg wash load
  - Energy rating: A+++
  - Available in white or black
- More details on p150

### Freestanding washer dryer

#### CI860

- 1400 spin speed
  - 8 + 6kg wash load
  - Energy rating: A
- More details on p150

### Freestanding tumble dryer

#### CI522

- 7kg drying load
  - Delicates setting
  - Reversible door
  - Energy rating: C
- More details on p151

### Integrated washing machines

#### CI325

- 1200 spin speed
  - 6kg wash load
  - Energy rating: A++
- More details on p152

#### CI371

- 1400 spin speed
  - 7kg wash load
  - Energy rating: A+
- More details on p153

### Integrated washer dryers

#### CI925

- 1200 spin speed
  - 6 + 3kg wash load
  - Energy rating: B
- More details on p154

#### CI971

- 1400 spin speed
  - 7 + 4kg wash load
  - Energy rating: A
- More details on p154

### Integrated tumble dryer

#### CI921

- 7kg dry load
  - 8 programmes
  - Sensor drying
  - Energy rating: C
- More details on p155

### CI261 High capacity freestanding washing machine

White

Black

This washing machine comes with Eco-logic, a half load detection system that uses less power and water accordingly.

#### Features

- 1200rpm spin speed
- 15 programmes
- 9kg wash load
- Delay timer
- Variable spin speed
- Variable wash temperature
- Eco-logic
- LCD display
- 12 minute quick wash function
- Delicates wash function
- Twin jet
- Anti-flooding safety
- Safety key lock
- Anti-crease function
- Clean pump filter indicator
- Failure detection system

#### Available in

- White
- Black

#### Technical specification

- Rated electrical power: 2.2kW
- Power supply required: 13A
- Noise level: wash 58 / spin 78dBA

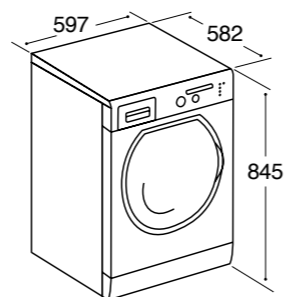

#### Energy efficiency rating

- Energy rating: A+++
- Wash rating: A
- Spin rating: B

#### Energy consumption

- Energy consumption per cycle: 1.03kW.h
- Water consumption per cycle: 57L

- Energy consumption per annum: 211kW.h
- Water consumption per annum: 12320L

### CI860 High capacity freestanding washer dryer

This washing machine comes with eco-logic, a half load detection system that uses less power and water accordingly.

**Allergysafe**  
The Allergysafe function on the CI860 maintains a 60°C water temperature for an extended period of time to remove 7 allergens and 4 types of bacteria from your laundry, including pollen, pet allergens, dust, mites, fungal and mould spores.

#### Features

- 1400rpm spin speed
- 15 programmes
- 8kg wash load
- 6kg dry load
- Delay timer
- Variable spin speed
- Variable wash temperature
- Eco-logic
- LCD display
- LCD progress indicator
- 15 minute quick wash function
- Extra rinse function
- Easy iron function
- Delicates drying function
- Condensing dryer
- Overflow protection
- Safety key lock
- Balance control
- Allergysafe function

#### Available in

- White

#### Technical specification

- Rated electrical power: 2.2kW
- Power supply required: 13A
- Noise level: wash 58 / spin 77 / dry 64dBA

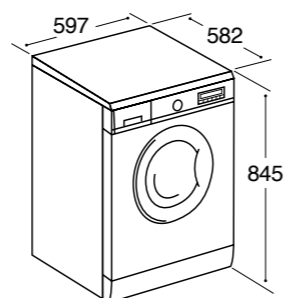

#### Energy efficiency rating

- Energy rating: A
- Wash rating: A

#### Energy consumption

- Energy consumption per cycle: 5.44kW.h
- Water consumption per cycle: 112L

- Energy consumption per annum: 1197kW.h
- Water consumption per annum: 24640L

### CI522 Freestanding tumble dryer

#### Features

- 7kg dry load
- Analogue progress indicator
- Vented dryer
- Variable drying duration
- Delicates setting
- Reversible door

#### Available in

- White

#### Technical specification

- Rated electrical power: 2.7kW
- Power supply required: 13A
- Noise level: 62dBA

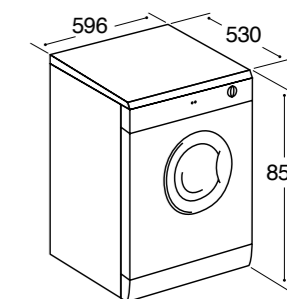

#### Energy efficiency rating

- Energy rating: C

#### Energy consumption

- Energy consumption per cycle: 4.48kW.h

- Energy consumption per annum: 519kW.h

### CI325 Integrated washing machine

#### Features

- 1200rpm spin speed
- 11 programmes
- 6kg wash load
- Delay timer
- Variable wash temperature
- Variable spin speed
- 15 minute quick wash function
- Delicates wash function
- Cold wash
- Wool wash
- LED display
- Safety key lock
- Anti-crease function
- Extra rinse function
- Intensive wash function
- Acoustic signal for end of programme

- Wash rating: A

#### Energy consumption

- Energy consumption per cycle: 4.76kW.h
- Water consumption per cycle: 99L

- Energy consumption per annum: 952kW.h
- Water consumption per annum: 19800L

# Sinks

The CDA sink range includes stainless steel, composite, ceramic and glass in either contemporary or traditional designs to suit any kitchen.

*Our comprehensive sink range offers maximum impact combined with cutting edge technology - the K980 even has Ariapura where titanium dioxide nanoparticles actively purify the air around your sink.*

## Ceramic

Made from incredibly robust, fine fireclay with a hard, glossy finish, these sinks are easy to clean and extremely durable. Our choice of styles includes contemporary single or one and a half bowl sinks, traditional Belfast styles and even ceramic undermount sinks.

## Glass

The stunning KVL02 is an innovative glass sink which co-ordinates perfectly with our black glass appliances and hobs. It is constructed from robust scratch, stain and heat resistant glass and finished with an elegant bevelled edge.

## Stainless steel

All CDA sinks are constructed from premium 304 grade stainless steel for superb quality. Stainless steel is resistant to heat and household chemicals, and is easy to clean. It has a smooth, non-porous surface making it very practical and hygienic.

## Flush-fit

Create a continuous, smooth worktop line throughout your kitchen with a flush fit sink. Unlike an overmount sink this range sits flush with the worktop resulting in an easy to clean, contemporary look.

## Composite

Made from a mixture of quartz or granite blended with acrylic resin for durability, our composite sinks are hard wearing and combine the natural look of stone with the benefits of a modern material.

# Quick guide to sinks

The CDA range of sinks includes stainless steel, ceramic, composite and even glass models. Undermount sinks are also available in either stainless steel or ceramic materials.

Most CDA sinks are supplied with pipework included and have large 3.5" strainer wastes.

## Stainless steel sinks

All stainless steel sinks from CDA are manufactured from premium quality 304 grade steel. This gives the sink a high resistance to corrosion and rust, with the ability to withstand all common household detergents. They are also extremely hygienic and easy to clean.

## Ceramic sinks

CDA ceramic sinks have a hard, non-porous surface with a tough, gloss finish. They are extremely durable and are resistant to both chemicals and heat. We offer a variety of styles from contemporary to traditional, including the classic "Belfast" model, available in both a single and double bowl option.

Please note: Ceramic sinks are traditionally made and each one will have individual characteristics. This may cause dimensions to vary from those shown in the brochure by between 2 and 5%.

## Composite sinks

Our composite sinks are made of natural granite or quartz combined with acrylic resin to give a durable and hard wearing sink.

Like the natural stone, particles of granite combined with resin give these sinks an authentic flecked finish that is incredibly hard wearing.

## Accessories

Look out for the useful optional accessories which are available to help make your life easy. Our accessories are designed to work perfectly with the compatible sinks.

## Undermount sinks

Also available but not shown in detail here:

### undermount sink range

CDA's KG80 sink is the only product on the market with Ariapura technology. The composition includes titanium dioxide that actively purifies the air around your sink using natural light, transforming pollutants into harmless mineral salts. It also provides antibacterial protection, supporting the cleanliness of your home environment.

### KG80 Composite double bowl sink

#### Features

- Granite/quartz construction
- Scratch resistant
- Tough and hygienic

# Taps

Whether it is a simple lever tap, or something more sophisticated, choose a tap from our 2017 collection and you can be sure that it will be beautifully designed.

*Our range includes taps to suit every kitchen from minimalist styles in stainless steel, chrome or nickel to traditional mixer taps, filter and an instant hot water tap.*

## Filter tap

Our TF55 tap filters mains tap water to improve its taste, clarity and odour. Mains water is passed through a cartridge concealed under the sink and is controlled through the tap by a simple lever action.

## Professional chef style taps

A pull-out spray is a useful helping hand on some of our contemporary taps. Use the spray for thorough rinsing of fruit and vegetables, for fast defrosting, to fill large vases or buckets, or for countless other kitchen jobs.

## Hot water on demand

Speed up cooking and making hot drinks by installing a TH100 instant hot water tap. With an under-counter heating tank, this useful kitchen appliance can produce around 1.5 litres of hot water per minute, supporting many culinary tasks.

## Quick guide to taps

The range of taps from CDA covers a wide spectrum of designs, from stylish, functional taps through to cutting-edge, contemporary designer taps to make a bold statement in your kitchen.

### Flow restrictors

Where building regulations (Part G) or ECO-design requirements stipulate maximum flow rates, we offer flow reducers (ATF002/ATF003), which are designed to be fitted inside the supply tails of the tap.

### Guidance on minimum operation pressure

Taps with a minimum operating pressure of 0.4Bar, or less, are compatible with low pressure hot water systems.

Check your supply pressure before purchasing taps requiring 0.5Bar or higher.

**Co-ordinating products**  
 This tap is ideal for installation with a Belfast style sink.

**TM1** Contemporary single lever tap with pull-out spray

## Features

- Single flow
- Minimum pressure: 1Bar
- Pull-out spray
- Ceramic disc valve

## Accessories

- Supplied with flexible tail pipes

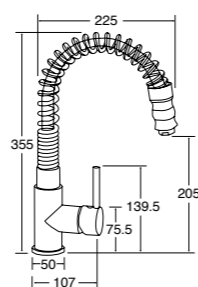

## Available in

Chrome

## Fitting note

- Please ensure that your supply pressure is adequate.

**TM30** Single lever professional style coil tap with pull-out spray

## Features

- Solid stainless steel construction
- Single flow
- Minimum pressure: 1Bar
- Pull-out spray
- 360° spout rotation
- Ceramic disc single lever valve

## Accessories

- Supplied with flexible tail pipes

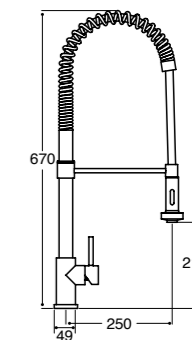

## Available in

Stainless steel

## Fitting note

- Please ensure that your supply pressure is adequate.

**Professional style**  
This professional coil tap with pull-out spray is perfect for rinsing food, filling large pans and making your sink a flexible work space.

**TV5** Contemporary side single lever tap

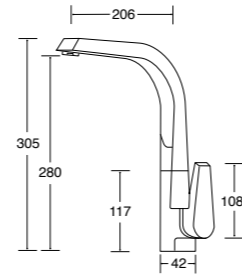

- Features
- Single flow
  - Minimum pressure: 0.5Bar
  - 360° spout rotation
  - Ceramic disc single lever valve

- Accessories
- Supplied with flexible tail pipes

Available in

 Chrome

**TV7** Contemporary side single lever tap with swivel spout

- Features
- Single flow
  - Minimum pressure: 0.75Bar
  - 360° spout rotation
  - Swivel aerator for precise flow control
  - Ceramic disc single lever valve

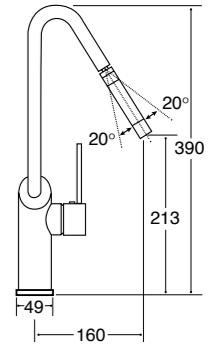

- Accessories
- Supplied with flexible tail pipes

Available in

 Chrome

Swivel spout for precise flow control

**TV6** Round tower single lever tap

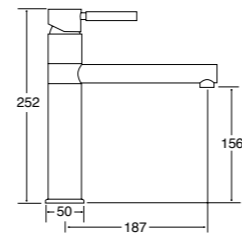

- Features
- Single flow
  - Minimum pressure: 0.5Bar
  - 360° spout rotation
  - Ceramic disc single lever valve

- Accessories
- Supplied with flexible tail pipes

Available in

 Chrome

**TV9** Contemporary square side single lever tap

Chrome

Matt black

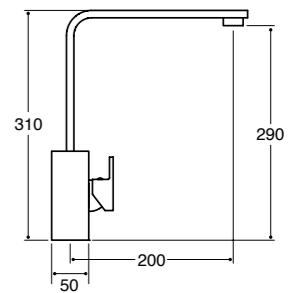

- Features
- Single flow
  - WRAS approved
  - Minimum pressure: 0.5Bar
  - 360° spout rotation
  - Ceramic disc single lever valve

- Accessories
- Supplied with flexible tail pipes

Available in

 Chrome

 Matt black

**TV11** Single lever tap with black pull-out spray

Features

- Solid stainless steel construction
- Single flow
- Minimum pressure: 1.5Bar
- Pull-out spray
- 360° spout rotation
- Ceramic disc valve

Accessories

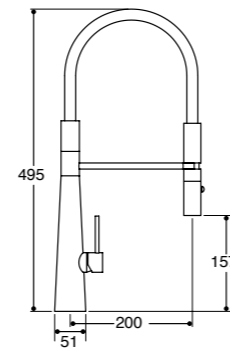

- Supplied with flexible tail pipes

Available in

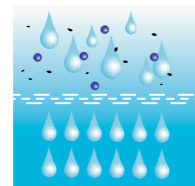

Fitting note

- Please ensure that your supply pressure is adequate.

**TF55** Monobloc filter tap with swan neck spout

Filters the water

Features

- Dual flow
- Minimum pressure: 0.4Bar
- 2 way ceramic disc valve
- WRAS approved

Accessories

- Filter and installation kit
- Supplied with rigid copper tail pipes

Optional accessories

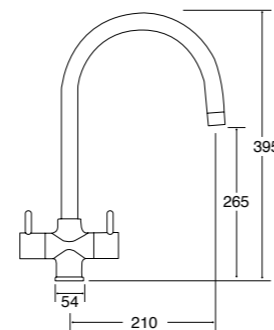

- Replacement filter, ATF001

Available in

Fitting note

- We recommend that you replace the filter every six months.

**TV12** Slimline single lever tap with pull-out spray

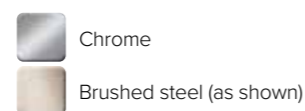

Features

- Single flow
- Minimum pressure: 1.3Bar
- Pull-out spray
- Ceramic disc ¼ turn valves
- 360° spout rotation
- Ceramic disc valve

Accessories

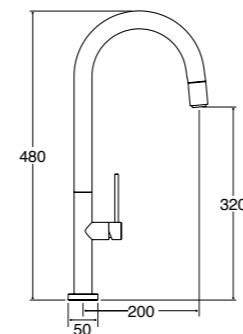

- Supplied with flexible tail pipes

Available in

Fitting note

- Please ensure that your supply pressure is adequate.

**TH100** 3-in-1 instant hot water tap

Standard hot and cold supply

Push lever back for hot 98°C water

Features

- Non-pressurised tank for increased reliability
- Electronic display on tank
- Minimum pressure: 1Bar
- 170° spout rotation
- 2.4L tank
- Filter included
- 1.4 - 1.9L/min flow rate
- Dispenses 1.25L before the temperature drops
- Rapid 7-8 minutes initial heat up from cold supply
- Unique heating system, allows several cups of 98°C water to be dispensed

Accessories

- Supplied with flexible tail pipes

Available in

Fitting note

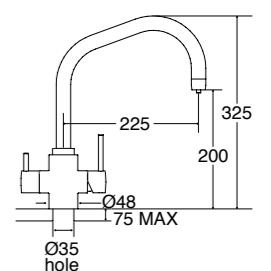

- Please ensure that your supply pressure is adequate.
- The filter must be replaced every 6 months to prevent limescale build-up.

WRAS approved

Under counter heating tank

Recommended by CDA

When you're busy making your magic in the kitchen, that's when accidents can happen. Reduce this risk by having a professional shelving system on your oven.

Our telescopic shelf kits allow dishes to slide forward and back with ease and importantly have the strength to hold the heaviest roast.

<sup>1</sup> main oven only. <sup>2</sup> main and second ovens only. <sup>3</sup> top oven only.

Please check product pages for compatibility.

## Heating accessories

### APH01SS Plinth heater

- Stainless steel finish
- 3 heat settings: cold (fan only), warm, hot
- On-off switch with neon indicator
- Automatic safety cut out
- Rated electrical power: 2kW
- Power supply required: 13A

Our 2kW slimline plinth heater provides instant heat where space is at a premium and discreet yet effective heating is required.

Cleverly concealed in the 'kick space' beneath kitchen units, stairwells and fitted furniture, a plinth heater eliminates the need for a separate radiator, allowing better use of the kitchen space.

APH01

### Curved glass splashbacks

## Guarantee

### Terms and conditions of guarantee

- Parts are defined as mechanical/electrical parts only.
- Products registered outside of the 30 day period will receive 12 months parts and labour.
- Proof of date of purchase must be supplied.
- To qualify for free parts they must be fitted by a CDA appointed engineer.
- Any attempts to modify or repair an appliance by an unauthorised person will render all guarantees invalid.
- A charge will be made for attending a reported fault that transpires to be due to misuse or mis-installation.
- CDA retains the right to invalidate the guarantee in the event of physical or verbal abuse towards any member of staff.
- CDA guarantees cover domestic use only - commercial use is not covered.
- Guarantees in whole or part are not transferable.
- Taps – During the first year, at our discretion we may pay for refitting (on receipt of the faulty part/tap, once inspected and deemed faulty) up to a maximum defined cost.
- The provision of services under the guarantee neither extends the term of the guarantee nor sets in motion a new guarantee period. The guarantee period for spare parts fitted ends with the expiry of the guarantee on the appliance as a whole. The guarantee remains effective from the date of purchase.
- On the occasion that a product is over 2 years old and is considered to be beyond repair, or uneconomical to repair, then we will offer a replacement appliance and charge an appropriate monetary offset in respect of the period of use already enjoyed.
- Guarantees apply in the UK and Southern Ireland only.

### What is not covered

- Transport damage for which CDA is not responsible.
- Improper installation and assembly.
- Improper use including where an appliance has been used in a non-domestic environment, or poor maintenance, or failure to observe the operating instructions.
- Faults due to accidental damage or misuse.
- Damage caused by the appliance coming into contact with unsuitable materials.
- Claims in respect of compensation for consequential loss, except where such liability is legally mandatory.
- Consumables and cosmetic parts such as glass, bulbs, seals, fuses, filters, external hoses, cosmetic parts, baskets, trays, burner caps, burner bases etc.
- Damage to, or during, the replacement of any light bulbs or removable parts of glass and plastic.
- Gas leaks not related to a CDA appliance.
- TH100 3-in-1 instant hot water tap is guaranteed for 2 year parts and 2 year labour.

Details of extended warranties are available on request.

This table shows where the guarantee is restricted due to non-domestic conditions:

	5 year parts, 2 year labour	2 year parts, 2 year labour	1 year parts, 1 year labour
Normal domestic sale and use	✓		
Rental or service apartment (non-students)		✓	
Students (communal living and non-communal) not new build		✓	
Students (communal living and non-communal) new build		✓	
Students (non-communal) one student per kitchen	✓		
Semi-commercial e.g. school domestic science lab			✓
